THE REGENCY AUCTION 40

AUGUST 27th • BELLAGIO • LAS VEGAS

Greetings Friends!

Welcome to our fourth Regency Auction in the new Covid reality. While we have seen all sorts of uncertainty in the world, one thing is very clear, numismatics is as popular as ever, and the market is growing stronger each day. Gold is at all-time record levels and the strong price of metals is flowing into the rare coin market. The supply of great coins is very dry on the market, and without the major coin shows for numismatic wheeling and dealing, auctions are the place to sell your coins! Right on the heels of our extremely strong Regency Auction 39, we are pleased to present Regency Auction 40!

The 370 lots that follow were consigned from a wide range of numismatists, collectors and dealers alike. Collector coins abound, with popular early types, 20th century condition rarities, better gold issues, and even some more esoteric coins like an error, territorial, and pattern issues. Many of these coins have been off the market for ages, coming out for the first time in auction on August 27, 2020.

Anchoring the sale are the RB Proof 2-cent pieces that make up the Perth Collection, assembled by our very own Laura Sperber.

Also included is a selection of 1880-CC varieties that make up the Carson City Sleeper Date Collection, a group that are made up of scarce overdate and reverse varieties. Other areas of concentration are 20th century half dollars with a great selection of Walkers and Franklins in high grade and bold visual allure. A dealer's personal "put away" coins offer the numismatist a lovely VF 1793 half cent, better gold, and a Pike's Peak \$10. Finally, The McNaught Collection is an assemblage of some fantastic toned Morgan Dollars, continuing our tradition of offering the very best in toned coins.

Sale highlights include:

Lot 8. 1C 1870 PCGS MS66+ RD CAC

Lot 52. 2C 1873 Closed 3. PCGS PR66+ RB CAC From the Perth Collection

We cannot wait to see you, socially distanced of course, at the Bellagio during the PCGS Members Only Show. Again, we will have everything set up for you to view the coins safely and participate in the auction during the auction. Contact us in the office for more info.

As always, happy hunting!

TERMS AND CONDITIONS

This is a public auction, conducted in accordance with these Terms and Conditions of Sale, by Legend Rare Coin Auctions (hereinafter referred to as "LRCA"). By bidding on any lot offered by LRCA, the bidder indicates acceptance of the following Terms and Conditions of Sale. Bidders are to comply with the Terms and Conditions of Sale, posted on LegendAuctions.com, at the time of the auction in which they are participating.

BUYER'S PREMIUM

A 17.5% buyer's premium will be added to all successful bids, and is payable by the winning bidder as part of the total purchase cost.

SALES TAX

All sales are subject to applicable state and local taxes. Any lots that are picked up and/or delivered in the state of The Regency Auction are subject to applicable state and local taxes.

PAYMENT

All merchandise must be paid for within TEN (10) days of the date of sale. We reserve the right to cancel any unpaid order after that time and to ban the bidder from future sales. Credit cards (Visa, MasterCard and Discover) are accepted for auction payments up to \$2,500.00 per invoice. Invoices and/or balances over \$2,500.00 must be paid via personal or certified check, money order, or wired funds. Personal checks, money orders and cashier's checks may be held for up to 10 business days in order to allow time for them to clear appropriate banking channels. Please email info@legendauctions.com for bank-wiring instructions and/or to provide numismatic references.

E-CHECK PAYMENTS

E-check payments now available. Please email form to info@legendauctions.com

INTERNATIONAL BUYERS

Foreign buyers, unknown to us, are required to deposit 25% of their anticipated expenditures before bidding. Please contact us in advance of bidding for bank wiring instructions.

EXTENDED PAYMENT TERMS

For all items \$15,000.00 and over, LRCA is now offering Extended Payment Terms. Please advise us at least 48 hours before bidding or purchasing the item in question. Pre-approval is required.

RETURN POLICY

All lots are sold "as is." Lots graded by PCGS, NGC or other third-party grading services, or any lot viewed by the buyer or anyone on buyer's behalf prior to the auction, may not be returned. This is not an approval sale. All sales of lots to the highest bidder are final. Bidders are strongly advised and encouraged to research any lots upon which they plan to bid, and to determine bids, based upon their own evaluation. Bidders assume all risks concerning and related to the grade, quality, appearance, condition, history and origin of any lot. Bidders acknowledge that coin grading is not an exact science, that it can be subjective and inconsistent and that it is possible that two parties might assess or grade the same coin differently. LRCA makes every effort to accurately describe all items offered in its sales. All items will be available for preview prior to the auction.

SHIPPING

Shipping costs will be billed separately and are non-refundable. Items will usually ship within 5-10 business days after payment has been received and/or funds have cleared. Coins will be shipped via Fed Ex or USPS or transported via armored carrier.

The shipping charge includes fees for our third-party insurance coverage, as well as any costs incurred through the USPS or Federal Express. Any shipments made via armored carrier (Brinks, Dunbar, etc.) will be calculated and assessed at the time of shipment.

INTERNATIONAL SHIPPING

It is not possible for LRCA to ship to some countries. Please email questions to info@legendauctions.com. Payment for all international orders is required in US funds. Please contact julie@legendauctions.com for bank wiring instructions.

Customs requirements for each country are the responsibility of the buyer. All packages shipped outside of the United States will include the required customs declaration and full value of the invoice.

BIDS VIA TELEPHONE

An absentee bidder may also participate live, during the auction, via telephone. Requests for phone bidding must be received at least three days prior to the auction date. Please fill out our phone bidding request form online or call 732-935-1168 to request a call from one of our representatives during the live auction. LRCA cannot guarantee phone lines, but will make every effort to accommodate those who wish to participate via this method.

RIGHTS & RESPONSIBILITIES

The auctioneer will determine the highest bidder. The auctioneer, alone, has the right to reopen the bidding for an item, if deemed necessary. LRCA and its representatives reserve the right to remove any attendees who impede the preview and/or the auction. Title to all merchandise shall pass to the winning bidder after receipt of good funds by LRCA. Bidders will be held responsible for their bids, including those bids placed incorrectly. PLEASE VERIFY BIDS BEFORE SUBMITTING THEM. In order to have a bid removed or corrected, bidder must contact LRCA prior to start of the auction. Bidder waives auctioneer's responsibility and holds LRCA harmless for failure to recognize, accept, receive or execute any lost or missing bids by internet, telephone, email, floor bid, fax, mail or other means. LRCA reserves the right to postpone or cancel an auction without notice. Lots may be withdrawn at LRCA's discretion, without prior notice. Lots may carry a reserve. A reserve is a price below which the auctioneer will not sell an item, or will re-purchase the item on behalf of the consignor or for LRCA. LRCA permits bids to be placed by the auctioneer, or an employee of the auctioneer, up to the pre-determined reserve set by the consignor. Legend Rare Coin Auctions' partner, Legend Numismatics, reserves the right to bid on items, for its own account and for the accounts of its clients.

DISCLAIMER AND WARRANTIES

No warranty of merchantability or fitness for a particular purpose is made or implied on any lot. No warranty, whether expressed or implied, is made with respect to any lot except for warranty of title, and in the case of title, auctioneer is selling only that right or title to the lot that the consignor may have as of the auction sale date. All lots are sold "as is" and with all faults. Purchaser hereby assumes all risks concerning and related to the grading, quality, description, condition, authenticity, and provenance of a lot.

- a. Coins and currency listed in this catalog graded by PCGS, NGC, or any other third party grading service or examined by the buyer prior to the auction sale may not be returned for any reason whatsoever by any buyer, except for claims related to authenticity.
- b. For non-certified coins that have not been examined by the Buyer prior to the Auction Sale: if it is determined in a review by LRCA that there is a material error in the catalog description of a non-certified coin or the LRCA no later than seventy-two (72) hours of delivery of the lots in question, and such lots are returned and received by LRCA, in their original, sealed containers, no later than fourteen (14) calendar days after delivery, in the same condition the lot(s) were delivered to the Buyer, time being of the essence.
- c. If an item or items are returned pursuant to the terms herein, they must be housed in their original, sealed and unopened container.
- d. Late remittance or removal of any item from its original container, or altering a coin constitutes just cause for revocation of all return privileges.
- e. Grading or condition of rare coins may have a material effect on the value of the item(s) purchased, and the opinion of others (including independent grading services) may differ with the independent grading services opinion or interpretation of LRCA. LRCA shall not be bound by any prior, or subsequent opinion, determination or certification by any independent grading service.
- f. Questions regarding the minting of a coin as a "proof" or as a "business strike" relate to the method of manufacture and not to authenticity.
- g. All oral and written statements made by LRCA and its employees or agents (including affiliated and related companies) are statements of opinion only, and are not warranties or representations of any kind, unless stated as a specific written warranty, and no employee or agent of LRCA has authority to vary or alter these Terms and Conditions of Auction Sale. LRCA reserves the right to vary or alter the

Terms of Sale, either generally or with respect to specific persons or circumstances, in its sole discretion. Any variation or alteration shall be effective only if in writing and signed by an officer of LRCA authorized to do so.

h. LRCA is acting as an auctioneer. Title to the lots purchased passes directly from the Consignor to the Buyer. Accordingly, LRCA is not making, and disclaims, any warranty of title.

i. Bidder acknowledges that the numismatic market is speculative, unregulated and volatile, and that coin prices may rise or fall over time. LRCA does not guarantee or represent that any customer buying for investment purposes will be able to sell for a profit in the future.

j. Bidder acknowledges and agrees that neither LRCA, nor its employees, affiliates, agents, third-party providers or consignors warrant that auctions will be unimpaired, uninterrupted or error free and accordingly shall not be liable for such events.

WAIVER AND RELEASE

Bidder, for himself, his heirs, agents, successors and assignees, generally and specifically waives and releases, and forever discharges LRCA, and its respective affiliates, parents, officers, directors, shareholders, agents, subsidiaries, employees, managers and members and each of them, and their respective successors and assignees from any and all claims, rights, demands and causes of actions and suits, of whatever kind or nature, including but not limited to claims based upon Auctioneer's negligence, whether in law or equity, tort or otherwise, whether known or unknown, suspected or unsuspected (a "Claim"), which Bidder may assert with respect to and/or arising out of, or in connection with any challenge to the title to or authenticity of any goods purchased, the sale itself, any lot bid upon or consigned, and/or the auction, except where such Claim is otherwise expressly authorized in these Terms of Sale. It is the intention of Bidder that this waiver and release shall be effective as a bar to each and every Claim that may arise hereunder or be related to the Auction Sale.

DISPUTES

If a dispute arises concerning ownership of a lot or concerning proceeds of any sale, LRCA reserves the right to commence a statutory inter-pleader proceeding at the expense of the Consignor and Buyer and any other applicable party, and in such event shall be entitled to its reasonable attorneys' fees and costs. LRCA reserves the right to cancel or postpone the Auction Sale or any session thereof for any reason whatsoever. No Bidder shall have any claim as a result thereof, including for incidental or consequential damages. Neither LRCA nor any affiliated or related company shall be responsible for incidental or consequential damages arising out of any failure of the Terms of Sale, the auction or the conduct thereof and in no event shall such liability exceed the purchase price, premium, or fees paid. Rights granted to Bidders under the within Terms and Conditions of Auction Sale are personal and apply only to the Bidder who initially purchases the lot(s) from LRCA. The rights may not be assigned or transferred to any other person or entity, whether by sale of the lot(s), operation of law or otherwise. Any attempt to assign or transfer any such rights shall be absolutely void and unenforceable. No third party may rely on any benefit or right conferred by these Terms and Conditions of Auction Sale.

Any dispute arising out of or related to these Terms of Sale, the Auction Sale or any lot, with the sole exception of actions by Legend Rare Coin Auctions to collect amounts owed to it and other damages, shall be submitted to binding arbitration pursuant to the commercial arbitration rules of the American Arbitration Association, with any arbitration hearing to occur in Monmouth County, New Jersey. Absent an agreement of the parties, the arbitrator shall limit discovery to that which is necessary to enable the hearing to proceed efficiently. The arbitrator shall not have the power to award punitive or consequential damages, nor alter, amend modify any of the terms of this Agreement. The award by the arbitrator, if any, may be entered in any court having jurisdiction thereof. Each party shall pay one-half the costs of the arbitration. Bidder acknowledges and agrees that the competent courts of the State of New Jersey shall have exclusive in personam jurisdiction, subject to the requirement to arbitrate, over any dispute(s) arising hereunder, regardless of any party's current or future residence or domicile. Bidder further agrees that venue of the arbitration proceeding shall be in Monmouth County, New Jersey; and any court proceeding shall be in the Monmouth County Superior Court, in the State of New Jersey, and in each case waive any claim of Forum Non Conveniens. Bidder agrees that any arbitration or legal action with respect to this Auction Sale is barred unless commenced within one (1) year of the date of this Auction Sale.

Auction participants expressly waive any right to trial by jury.

PRINCIPALS

Laura Sperber
Partner

Laura was raised in Highland Park, NJ. During high school, the coin bug hit her hard. Her trip to the 1976 NYC ANA left a lasting mark and huge desire for her to own and handle the greatest rarities. While attending Monmouth University, Laura attended coin shows more than classes. After college, she started LSS RCI, a wholesale coin company. In 1986, she realized the need for a "better" coin retailer and teamed up in 1986 with George Huang to form Legend Numismatics.

In 1996 Bruce Morelan became a partner and since then Legend has exclusively built or assisted in assembling this generation's greatest collections. In 2012 Laura saw the need for a smaller, boutique auction firm, and created Legend-Morphy with Dan Morphy, whom she split with in 2014. Today, Laura is also a leading consumer advocate for coins. The passion has never subsided, and she keeps a beautiful Proof Walker on her desk to this day.

Bruce Morelan
Partner

Bruce started collecting coins when he was only six years old and by the time he was in high school his dream was to be a coin dealer. But life intervened and instead, Bruce went into business. By chance, he became Legend Numismatics' financial backer in 1996. His great grandmother had given him three coins when he was young, one of which being a Trade Dollar, so he set out to build the finest Trade Dollar set. After a few years with ultra rarities, Bruce returned to his love of dollars and completed both a set of Gobrechts and a set of Seated Dollars.

After selling those sets, Bruce recently returned to dollars with a new Gobrecht set and a spectacular early dollar set capped by his dream coin, the Amon Carter 1794 Dollar. Not many collector's can say they have completed not only the finest 1794-1885 Dollar Sets and have over the years owned such coins as two 1913 Liberty Head Nickels, an 1894-S Dime, 1876-CC Twenty Cent piece, 1827 Original and Restrike Quarters, 1838-O Half Dollar, two 1885 Trade Dollars and four 1884 Trade Dollars!

Matt Bell
CEO

Matthew Bell graduated Magna Cum Laude from Ithaca College with Business Administration degrees in Finance and Marketing and Accounting. He is a member of five collegiate honor societies, the Oracle Society, Phi Kappa Phi, Beta Gamma Sigma honor society for Business, Sigma Iota Epsilon, and Beta Alpha Psi.

Prior to joining the Legend team, he was Senior Accountant for Global Essence, Inc, an international flavor and fragrance company.

Originally hired as a Staff Accountant, he was quickly promoted to be the number two person in the Finance Department for the company.

Matthew was brought onto LRCA in September 2017 as Controller for both LRCA and Legend Numismatics. He was promoted initially to Executive Vice President in May of 2018, and again to CEO in January of 2020. Since he has been with the company, Legend Rare Coin Auctions has seen its business expand to seven Regency Auctions per year, and enjoyed three consecutive years of revenue growth.

Julie Abrams
President

Julie Abrams started in numismatics in 1986 when she joined up with Bernard Rome and launched Teletrade, the first computerized auction company. As President of Teletrade, Julie helped expand the company, increasing the frequency of auctions and expanding annual sales to \$24 million within a few years. In 1999, GMAI, a publicly traded company, purchased Teletrade and Ms. Abrams became Executive Vice President of Sales for the parent company, as well as continuing her role as CEO for Teletrade.

In 2004 she joined Stacks-Bowers, she worked to develop an online bidding platform for the firm. She also marketed Stacks' programs to secure consignments from dealers and institutions such as banks, museums and universities.

Julie is a member of the American Numismatic Association, the Central States Numismatic Association and Florida United Numismatists.

LOT 1**1/2C 1793 PCGS VF20**

A pleasing C-1, B-1 housed in an old green tag holder and this handsome coin represents some of the earliest federal coinage struck for regular circulation.

The first 7,000 were delivered on July 20, 1793 and in all, only 35,334 1793 half cents were produced. The commercial demand for coinage prompted the vast majority of them to enter into circulation. Between extensive use and poorly produced planchets, a great many of them have environmental damage or other issues that would preclude grading. The presently offered example shows generally smooth,

problem free wear. A planchet flaw in the center of the reverse is noted for accuracy, but the surfaces are otherwise hard and free from corrosion. Aside from HALF CENT in the central portion of the reverse, all the details were well struck and have a great look. The eye appeal is really strong for the grade, and this is a very popular “blue chip” of American numismatics!

PCGS 37, NGC 10. The most recent example sold for \$9,000 in February 2020 and prior to that, one sold in January 2017 for \$10,281. The current PCGS Price Guide value is listed at \$13,000. This coin will see spirited bidding from the collector looking for a quality, mid-grade relic from the earliest U.S. mint issue.

PCGS# 1000 • ESTIMATE: \$8,000+

LOT 2**1/2C 1834 C-1. NGC MS66 BN**

A lovely GEM-caliber example of this Classic Head half cent. Tied for FINEST in the BN category.

Boasting fully struck up devices and silky smooth surfaces, the even brown patination is enlivened by a brilliant mint luster. Soft iridescent overtones are subtle but add to the undeniable eye appeal.

PCGS 0, NGC 3. This coin accounts for two of the three most recent appearances, realizing \$1,894 in September 2015 and \$1,955 in August 2006. Unpriced by Collectors Universe in this grade. NGC has not graded any finer than MS66 in any color classification, bested only by a single MS66 RB.

PCGS# 1165 • ESTIMATE: \$1,500+

LOT 3

L1C 1793 CHAIN AMERICA. NGC F12

S-3. We think NGC “net” graded this Chain cent, the sharpness is that of a F15 or VF20, but the surfaces show some minor planchet roughness and a minor, ancient scratch below the date. The central devices and the legends are sharp on both sides. Despite the few minor flaws and modest grade, this Chain cent has a very nice eye appeal.

The Chain cent represents the premier design of the American cent, and began a legacy that continues to this day. Only 36,103 Chain cents were produced from February 27 to March 12 using five different die pairs. These five die pairs include 3 distinct Red Book varieties; S-1 AMERI., S-2, NC-1, S-3 AMERICA, and S-4 With Periods. The Sheldon-3, Breen-4 is the most common, the dies were used to strike coins from March 2 to March 8, and make up perhaps half of the mintage. These historic large cents’ design are attributed to Henry Voight. Contemporary commentary on the design was negative and the design was changed quickly. Critics said that the portrait of Liberty makes her look as if in a fright, and the interlocking chain on the reverse was a bad omen for Liberty. Since the mid 19th century the Chain cent has been a popular collectible, in constant and consistent demand from collectors, regardless of grade. A numismatic “blue chip” that is one of the all time classics and a coin most collectors only dream about owning.

PCGS 52, NGC 9. No NGC-graded example has ever sold in auction, but recent PCGS-graded examples have sold for \$14,400 to \$16,800. Housed in an old NGC-fatty holder, this coin is fresh to the market in a very desirable “collector” grade and will see very strong bidding from collectors. Good luck.

PCGS# 1341 • ESTIMATE: \$12,000+

LOT 4**L1C 1837 N-16. MEDIUM LETTERS. PCGS MS65+ RD CAC**

A fabulous FULL RED GEM N-16 from the Naftzger Collection! WOW! This sentence from the original description should sum up this coin's importance straight away, "A breathtaking large cent in spite of a few marks, the 'reddest' piece in this fabulous collection." Let that sink in! In all the AMAZING large cents in the February 2009 offering of the Naftzger Collection, the McCawley-Grellman-Goldberg catalogers made that declaration! It speaks volumes right there!

The SOLE FINEST example graded by either service in the RD category, this coin also ranks atop the Bland Census as #1, graded "MS70-" and is tied for CC#1 on the Noyes Census, and called "MS65."

A stunning, totally original RED cartwheel luster blazes a fiery brilliance across the surfaces on both sides. Though careful inspection with a strong glass reveals a few very fine marks and a fleck here and there, this GEM has NO PEERS! A middle die state piece with some die flow lines on the obverse and the reverse die is somewhat worn out from its remarriage from N-2.

Ex. Oliver E. Futter; Louis Helfenstein Collection, Lester Merkin, August 1964, lot 172; Floyd T. Starr Collection, Stack's, June 1984, lot 349; Anthony Terranova to Roy E. "Ted" Naftzger Collection, Goldberg, February 2009, lot 398; to our consignor.

PCGS 1, NGC 0, CAC 1. This coin sold in the Naftzger Collection sale for \$35,640. Hard to believe but the series of Naftzger Collection auctions was over a DECADE ago! WOW! The only other PCGS RD example is the spotty N-13 from the Twin Leaf Collection, graded MS64 RD. This MS65+ RD is a truly magnificent GEM Large Cent, so should you seek just one for a type set, or need an exceptional 1837 for a world class cabinet of Middle Date large cents, look no further!

PCGS# 1737 • ESTIMATE: \$35,000+

LOT 5

L1C 1851 N-16. NGC MS66 BN

A strong luster broadcasts itself across the GEM quality surfaces of this later date large cent. Light iridescent toning blends with ample original red and rich, deeper brown. Nicely struck, the definition is crisp and complete. We note a couple of tiny, insignificant flecks that do not detract from the very pleasing visual quality.

PCGS 40, NGC 43. The current Collectors Universe value is listed at \$1,750 and recent NGC APRs are \$1,140 to \$1,320. Between PCGS and NGC, just 14 have graded higher in the BN category.

PCGS# 1892 • ESTIMATE: \$1,000+

LOT 6

1C 1857 FLYING EAGLE. PCGS MS65 CAC

A lovely high end GEM Flying Eagle cent. Boldly lustrous surfaces are aglow, bringing life to the delicate toning seen on both sides. Sharply struck, the details stand out nicely. A few minor flecks and some minor contact is all that keeps this amazing looking early small cent from an even loftier grade.

PCGS 288, NGC 217, CAC 67. There is a wide range of prices realized in auction going back to 2018, from \$3,000 to \$6,600; most bringing between \$3,000 to \$4,500; clearly the Price Guide values (\$3,150 PCGS and \$3,310 CAC CPG) seem too low based on APRs. RARE any finer, this is a great type coin worthy of any PQ set.

PCGS# 2016 • ESTIMATE: \$3,000+

LOT 7

1C 1868 PCGS MS65 RB

Lustrous with ample original mint red evenly spread cross both sides of this slightly toned GEM. A glass reveals a few minor toning flecks on the obverse. Well struck and generally pleasing, this date is VERY RARE in full RED.

PCGS 135, NGC 95. The last one sold in March 2020 for \$1,020 and the current Collectors Universe value is listed at \$1,300. Less than a roll is graded finer at PCGS in the RB category.

PCGS# 2092 • ESTIMATE: \$900+

OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

LOT 8

1C 1870 PCGS MS66+ RD CAC

Regardless of its assigned grade and rank on the PCGS Population Report, you can easily tell this SUPERB GEM is among the FINEST KNOWN! That it is tied for highest graded at PCGS just verifies the fact.

An intense, brilliant mint red color radiates all over on both sides. Blazing, bold cartwheels roll along the smooth, silky red surfaces. Every detail is sharply struck, with full crispness on both sides and the surfaces are essentially pristine. Indeed, it takes a very strong glass to find any microscopic flecks and ticks. The eye appeal is simply amazing.

PCGS 11, NGC 1, CAC 3. There are 3 in MS66+ RD and NONE FINER. The current PCGS Price Guide value is listed at \$25,000 and we set a record in March 2020 for this one at \$25,850. Our customer has changed directions, and is making it available to collectors yet again. Do not let this opportunity pass you by...rarely do you get second chances like this.

LOT 9**1C 1879 PCGS MS67 RB CAC**

We unhesitatingly rank this piece in the “monster” category. It is a wonder how it survived 141 years in such perfect condition. If this had been an MS68, we might not flinch.

Perfect surfaces are a joy to behold. Even using a powerful glass yields ZERO imperfections. There is a sleek but satiny texture all over. A full booming cartwheel type luster can be seen a good distance. Both sides are a GEM original mix of olive/faint red/golden brown colors. There

are NO spots or discolorations. Every detail is needle sharp in strike and stands out. This coin is crazy awesome, and has killer eye appeal too!

PCGS 1, NGC 0, CAC 1. There are no auction records for this coin. The market will determine its worth. BUT we expect massive bidding on this stunner!

LOT 10**1C 1909-S INDIAN. PCGS MS65 RD**

Ending its fifty year run in 1909, the San Francisco mint only struck 309,000 examples, before switching over to the Lincoln cent. The present GEM is a brilliant mint red with a bold luster. A few very minor ticks are seen with a strong glass, but nothing detracts from the wonderful visual allure.

PCGS 169, NGC 53. The most recent APRs range from \$3,480 to \$3,850 and the current PCGS Price Guide value is listed at \$5,000. RARE any finer in the Red category.

1C 1861 PCGS PR66+ CAM CAC

WOW! A truly STUNNING, SUPERB CAMEO Proof 1861. The SINGLE FINEST graded by either service by a full point and a half; the next finest graded is a PR65 CAM.

Everything is ultra HIGH END! Incredible quality mirrors have a deep, beaming reflection that is as close to flawless perfection as you can ever imagine! The fields are smooth and possess a rich orange-golden color that is totally original and adds to the dramatic visual effect. The Longacre designed devices stand out, fully and thickly frosted with razor sharp definition on both obverse and reverse, creating a magnificent Cameo contrast. Both sides show, under the most intense scrutiny with a strong glass, a few tiny flecks and lint marks, both mint made, and not distracting in the least. The eye appeal is simply outrageous! We have not seen anything similar! Really WOW!

Struck as the Civil War was breaking out, the fact that a delicate Proof cent can survive in such a lofty, pristine state of preservation boggles our minds!

Only 1,000 Proofs were struck. PCGS 1, NGC 0, CAC 1. All CAMEO 1861 cents are much more rare than other dates. Unpriced by Collectors Universe and the CAC CPG, we suspect this coin will break all records when the hammer finally falls. Good luck!

LOT 12**1C 1909 V.D.B. LINCOLN. PCGS MS67+ RD**

An amazing, PRISTINE quality V.D.B.! What an exceptionally high end, high grade survivor of this popular first year of issue. Boldly lustrous with extremely brilliant original RED surfaces. Even with the aid of a strong loupe we cannot find any spot, fleck or mark worthy of singular mention and the eye appeal is great, and is tied for second highest graded by PCGS!

PCGS 59, NGC 0. Just three are graded higher at PCGS. The average of the last 10 non-CAC PCGS MS67+ RD examples sold in auction (between December 2017 and April 2020) is \$2,784 and the current Collectors Universe value is \$3,150. NOTE. NONE of the PCGS MS68 RDs (pop 3), have ever sold in auction, making the one among the FINEST on the market. Good luck!

LOT 13**1C 1909-S V.D.B. LINCOLN. PCGS MS66+ RD**

Ranking near the very top of the population, this borderline SUPERB quality GEM example is a magnificent 09-S V.D.B. It is one of the FINEST examples from a limited mintage of only 484,000.

Blazing, fiery red surfaces show impeccably brilliant luster that glows all over. There are a few minor tiny flecks and ticks that can be seen with a strong glass, but to the naked eye, this coin stands out for its virtually flawless surfaces. The color is stunning, simply stunning and the strike is exceptionally sharp. The eye appeal is amazing, and we really do not understand why CAC did not bean this HIGH END and high quality GEM.

PCGS 27, NGC 1. Only four non-CAC examples have sold in auction, the most recent of which brought \$11,750 in the 2017 FUN auction, but prior to that, one sold for \$18,213 in June 2016. The current PCGS Price Guide value is listed at \$24,000 and we invite you to compare this SUPERB example to the recent CAC examples that have sold. It will see very active, serious bidding from anyone building a superb set of Lincoln cents. EXTREMELY RARE any finer so do not let this one slip your grasp.

LOT 14**1C 1910-S PCGS MS66 RD**

Almost matte-like texture in the fields have a satiny red frost that has a delicate blush of violet-magenta when rotated in the light. Razor sharp devices stand out against virtually flawless surfaces. Offering a nice eye appeal as well as high grade, this one will fit into a neat set.

PCGS 115, NGC 40. The most recent non-CAC example sold in April 2020 for \$960 and prior to that one sold in the 2020 FUN auction for \$1,302. The current PCGS Price Guide value is listed at \$1,700. RARE any finer, PCGS has graded a total of 31 higher in the designation, including, no doubt much duplication.

LOT 15**1C 1913-D PCGS MS66 RD CAC**

Distinctive Mint Red and exceptionally sharp details are the hallmarks of this true GEM. The central obverse is an attractive pink-rose hue, otherwise fully red throughout. Some miniscule toning flecks are visible with magnification at the upper left obverse, but they do not detract in any way. Although available in lower Mint State grades, this date is seldom encountered in this superb state of preservation.

PCGS 25, NGC 4, CAC 5. The highest grade stickered by CAC, with only 5 graded MS66+ by PCGS. The PCGS price guide lists the value at \$3,750 and the last auction appearance recorded a price of \$3,240 in April 2020. A superb addition to the finest Lincoln Cent set.

LOT 16**1C 1914-D PCGS MS65+ RB CAC**

GEM 1914-D cents are indeed always in demand and infrequently seen. One of the KEY issues of this series, the mintage was a low 1,193,000 and this 65+ retains ample red coloration to warrant the RB classification. Sharply struck, this beauty has a very high end look. With a brilliant, satiny luster that glows boldly on both sides, the surfaces show off a delicately toned copper color. Aside from a very minor carbon fleck, hidden on the reverse, this lovely coin retains an excellent eye appeal that is otherwise nearly flawless.

PCGS 76, NGC 37, CAC 33. There are a mere five examples graded MS65+ RB and just a pair of 66 RBs graded finer at PCGS. The most recent example sold in the 2020 FUN auction for \$9,600 and prior to that, another one sold in December 2019 for \$8,700. The current PCGS Price Guide value is listed at \$12,500 and keep in mind that a 65+ RD with CAC approval would cost over \$25,000! This coin should see very spirited bidding and will be a centerpiece in any GEM set.

1C 1922 NO D. STRONG REVERSE. PCGS MS64 BN CAC

Here is an AMAZING and incredibly IMPORTANT near-GEM 1922 No D. Any example at this numeric grade level, regardless of color designation is EXTREMELY RARE.

High end everything! The quality is all there and then some! The surfaces are ultra clean and overall are totally blemish, spot, and problem free. Even with a strong glass there are no issues. A strong glossy luster shows off GEM even and totally original chocolate brown colors. There is faded original Mint Red in thin bands around the devices. Lincoln and all the details are well struck. The eye appeal is exceptional!

PCGS 4, NGC 1, CAC 2. This is the most recent example to sell in auction, realizing \$38,775 in our December 2016 Regency Auction. There is just a single CAC MS65 BN graded finer, which sold for \$82,250 in April 2013. This impressive example is bound for a fantastic Lincoln cent set! Good luck!

1C 1923-S PCGS MS65+ RD

Legend Rare Coin Auctions is honored to once again offer this 23-S cent; the SINGLE FINEST graded example.

Wonderfully preserved surfaces have a satiny lustrous mint red coloration on both sides. The 1923-S cents, even when designated red don't come with a fiery red color; it is usually more subdued as seen here. A few scattered ticks are seen with the aid of a strong glass, but none are visible to the naked eye. Well struck for the date that usually comes with a more blunt strike and softly impressed details. There are also zero flecks or carbon spots to be found anywhere.

PCGS 1, NGC 0. NONE ARE FINER at either PCGS or NGC. A really important opportunity for any Lincoln cent collector. The current PCGS Price Guide value is listed at \$70,000 and it sold in our September 2019 Regency Auction for \$67,563. We anticipate that bidding will be intense when the top ranked Registry Set collectors come out in force to bid on this FINEST GRADED 23-S. OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

THE PERTH RB 2C COLLECTION

The Perth RB Collection comes to us from the personal holdings of our founder, Laura Sperber. This set was assembled with the same critical eye for quality and eye appeal that has built over a dozen PCGS Hall of Fame Registry sets. Laura left no stone unturned in her pursuit to build this absolutely incredible 2C Collection. 2C pieces have always appealed to Laura, and she set out to build a set that would stand against any other in terms of quality and eye appeal. You know that with each of the coins featured here, the hard work has already been done for you.

Laura has been debating moving on to other numismatic pursuits for some time now, and feels the time is right to see her collection placed in new hands. You may see other sets offered but none will have the quality and eye appeal of this set. The star coin is the 1873 Open 3 PCGS PR66 RB CAC; at first glance its red! Laura is hoping that a new generation of owners can purchase these coins and appreciate them as much as she has. Legend Rare Coin Auctions is proud to present, the Perth RB Collection!

This is a triple WOW wee coin! The quality is SUPER HIGH END.

Super deep, crystal clear, remarkably clean, and boldly reflective mirrors are on display all over. Even if you use a strong glass, what impresses you most is what you do NOT see: spots or serious lines. Both sides are bathed in a mind boggling mix of ORIGINAL golden brown/faded Mint Red/gold colors. Every detail is needle sharp and has strong frost. There also is some light contrast between the devices and the mirrors.

ONLY 725 were ever minted. PCGS 22, NGC 22, CAC 15. The last one to sell in auction brought \$3,240 in June 2020. As you can see, these are not so common! No matter how picky you are, if you LOVE flash, then you WILL love this GEM!

This coin is so high end and outstanding we admit to having resubmitted it. PCGS seems firm on their grade.

Superior mirrors are deep and beam from all over. They have amazing clarity, cleanliness, and of course, BOLD reflection. When you twirl the coin the mirrors look like "liquid ice" but coppery in color. Not far from being full GEM MINT RED, the colors are totally original. Fantastic shades of Mint Red/gold/pale violet all swirl evenly. There are NO spots or discolorations.

Technically, this coin is all there and then some. The mirrors are deep and powerfully blast flash back at you. They are also clear, ultra clean, and have decent reflectivity. About 50% of the color is original GEM FADED MINT RED. The rest is an even faded brown/purple color that dazzles. There are NO spots of any size. Every detail is perfectly struck and has gentle frost.

Incredible quality and totally original! This high grade example ranks high on the PCGS Population Report and is clearly one of the FINEST pieces known to exist.

Impressively preserved, nearly flawless mirrors beam with a bold reflection and inspiring clarity. The surfaces are clean and the mirrors are crystal clear.

A totally original and warm patina, showing off as a rich peach-apricot-rose with splashes of blue, crimson, and gold cover both sides in a lovely dappled pattern. While deep, the colors do not impede the freshness or brilliance of the flashy mirrors. The devices are crisply and fully struck up with a thick frost that provides an awesome amount of CAMEO contrast on both sides. The eye appeal is truly WILD and we love the look of this stone bold original GEM that borders on the SUPERB category.

Walter Breen notes that Don Taxay discovered this overdate variety in 1962. According to Ron Guth (writing for PCGS CoinFacts), the overdate is only available in the Proof format. The reverse die was cracked, suggesting that this issue is a restrike issue, created after the 1864 Proofs, but before some of the business strikes, which was only possible during the summer of 1864.

Fewer than 460 were struck. PCGS 4, NGC 0. Bluntly struck due to lack of metal to flow into the recesses of the dies, this coin has a really cool look. Boldly lustrous, this coin has a totally original dusting of iridescent pearly-golden tan.

The planchet stock looks to be some sort of copper-nickel alloy, and further investigation and research may reveal the type of planchet stock. When sold by Heritage in back in the 2007 ANA, they noted the weight of 2.7 grams was too heavy to be a 1903 Costa Rican 2 centavos and too light for a Philippines 5 centavos. Unlike any example we have sold before, this SUPERB 1913-D Type 1 has quite the stunning visual allure! Intense mint luster blooms all over enlivening the amazing quality surfaces. Sharply struck up from broken and clashed dies, the obverse has a really neat die crack. Every detail is fully and crisply rendered. A delicate blush of iridescent, icy blue tone is truly a delight to behold.

PCGS 84, NGC 28, CAC 39. Most examples have sold in the \$2,000-\$2,500 range, but few, if any have this coin's outstanding visual effect, and thus worthy of a much stronger bid. Good luck!

5C 1913-D TYPE 1. PCGS MS67+ CAC

A GORGEOUS SUPERB GEM! A satiny lustrous example of this first year type. Light pastel lavender iridescence enlivens a bold strike. As to be expected at the 67+ grade, this coin is virtually flawless, devoid of anything that can be seen even with a glass. EXTREMELY RARE any finer, this coin is ideal for an exceptional set.

PCGS 100, NGC 34, CAC 39. There are just 16 graded MS67+ and a mere 3 graded higher. Just five PCGS/CAC examples have sold in auction, ranging from \$3,120 to \$10,281 and the current Collectors Universe value is \$7,000. Keep in mind the only 68 to ever sell in auction brought \$32,200 16 long years ago! What a great coin for anyone working on a SUPERB SET.

Are you working on a top tier set of Buffalo nickels? If so, do not let this LOVELY SUPERB GEM slip past your grasp.

Keenly struck devices are surrounded by essentially FLAWLESS fields. Boldly lustrous surfaces beam and bring forth a brilliant nickel-silver color with just a hint of the softest hues. The eye appeal is amazing and this is one of the highest graded.

PCGS 33, NGC 8, CAC 12. We sold the last two PCGS/CAC MS67s, one in January 2020 for \$5,405 and one in June 2019 for \$6,169. Clearly the PCGS and CAC CPG values (\$4,500 and \$5,000, respectively) are too low. Just 11 are graded MS67+ and those are valued around \$10,000-\$11,000. Good luck.

This piece is a "no brainer" SUPERB GEM! Clearly this coin has been carefully and lovingly cared for since the day it left the mint, 105 years old and this piece is pristine! Highly lustrous surfaces are smooth and satiny, devoid of even any microscopic imperfections. Sharply struck from boldly clashed dies, this SUPERB example has a pale golden tone that creates a dreamy, eye appeal.

PCGS 71, NGC 10, CAC 13. Just a dozen are graded higher, all are MS67+. The current PCGS Price Guide value is \$2,000 and the CAC CPG value is \$2,060, but the last one to sell hammered at \$3,100 in our December 2016 Premier Session Internet Only auction. Worthy of a strong bid for sure. Good luck.

5C 1916 DOUBLE DIE OBVERSE. NGC AU55

A totally original, crusty AU example of this important rarity. The doubled features are bold and completely visible to the naked eye. Not only is the doubling noticeable at the date and feathers, but also the profile shows bold doubling. Rarer than the other key varieties in the series, the 1918/7-D and the very famous 1937-D 3 Legged. Survival estimates range from 200-400 in all grades, with most being in the VF range. Nicely defined details show light wear, evidence that it was discovered before it was able to get heavily worn and pulled from circulation. Unlike many that have been conserved in the past, this piece has bold tan-russet, and dove toning. A few insignificant marks are noted for accuracy, but none are serious enough to negatively affect the eye appeal. A very rare date in a highly collectible grade.

PCGS 21, NGC 19. The most recent NGC-graded example sold in February 2016, which realized \$32,313. The current Collectors Universe value is listed at \$35,000 and it jumps to \$45,000 in AU58. Incredibly RARE in Mint State, this nice AU should fit the bill for anyone looking to fill the hole in their set.

Lovely, eye appealing toning graces the both the obverse and reverse of this GEM 24-D. Well struck for the issue which often comes very weak and mushy, the presently offered example has crisply defined devices. A satiny mint luster blooms all over, highlighting a delicate blue, olive, gold, peach and lilac pastel toning. What a wonderful coin for the advanced collector and it is VERY RARE any finer.

PCGS 132, NGC 2. The most recent example to sell in auction brought \$3,760 in June 2017 and prior to that one, \$4,300 hammer in our March 2017 Premier Session. Most recently a non-“+” MS65 sold in the 2019 ANA auction for \$6,000. The current Collectors Universe value is listed at \$5,250. Just a dozen examples have ever graded finer, all MS66.

OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

5C 1913 TYPE 2. PCGS PR68

Monumental quality for this early Proof Buffalo. Only 1,514 pieces were struck and this stellar example is tied with the ABSOLUTE FINEST examples known today.

The currently offered PR68 is tied for FINEST graded at PCGS! Beautifully toned and totally worthy of its lofty designation. The eye appeal is exceptional and it is a perfect combination of nickel blue at the centers and framed in varying shades of gold, yellow and crimson on both sides! The strike is bold throughout, as expected for a Proof, and this is the second style issued in 1913, with the straight and level ground. The original design was altered slightly after Mint officials realized the Type 1 with raised ground allowed the letters FIVE CENTS to wear down quickly, and vending machine owners believed the original design may be deemed a counterfeit by their machines. Thus as has been the case with several newly designed coins, changes quickly came about to appease various groups.

The Buffalo Nickel design was created by James Earle Fraser, an artist from outside the Philadelphia Mint. Fraser took images of three aging chiefs and developed a composite portrait. The chiefs used were Iron Tail (Custer's opponent at Little Bighorn), Two Moons, and John Big Tree. The desired result was a Native American that could not be attributed to any one tribe. For the reverse Fraser used an American bison named Black Diamond, then living at the Central Park Zoo in New York City.

PCGS 12, NGC 6. The most recent example sold for \$25,850 in our March 2020 Regency Auction, and prior to that, one sold for \$30,000 in October 2018. The current PCGS Price Guide value is listed at \$35,000. NONE ARE GRADED FINER at PCGS, making this a SUPERB choice for any AMAZING quality set. We have long said that the Proof Buffalo nickel collection is a really neat project, a small number of coins that do come nice, in various grades, up to and including PR68. With some effort a world class set can be built. Let this be your Type 2 1913!

A gorgeous "GEM" XF45 1794 half dime housed in an old green tag holder. LM-4, which is listed as R-4.

First off, we think this coin is conservatively graded, we have seen AUs that do not have the detail of this incredible coin. Second, so many of these have been conserved in such a way that when you find a problem free and original example, especially one that has CAC's endorsement. Deep dove gray with warm brown and blue overtones, this lovely coin shows hints of underlying luster in the protected areas. The definition is sharp, with full definition throughout. With just a hint of rub on the highest points, this coin is the perfect "collector" grade with a huge eye appeal for the XF grade.

JR-4. A beautiful near-GEM quality example of this early date Capped Bust dime. Remarkable, and totally original toning adorns both sides, with a frame of steely-azure-teal that fades into an apricot-amber-gold that graces the centers. Well struck from clashed dies, and the reverse die was in an advanced, shattered state with multiple visually curious cracks and breaks throughout. A very impressive 1814 dime, these are extremely rare any finer than the currently offered MS64, especially when CAC-approval is taken into account. This example is housed in an ancient NGC "fatty" holder and appears to be fresh to the market. Its classic, old time collection eye appeal at once makes it very familiar.

Struck during the height of the War of 1812, the historic date 1814 saw the British capture and burn many parts of Washington D.C., including the President's Mansion. However, by the end of the year, British and American diplomats agreed to the Treaty of Ghent, which formally ended the conflict.

PCGS 28, NGC 33, CAC 6. No NGC/CAC piece has ever sold in auction, but we sold one in May 2017 for \$4,935 and prior to that, examples sold in the \$5,500 to \$8,500 range. PCGS PR67

What an amazing SUPERB GEM Proof Seated dime! The mintage of 700 Proofs is in line with other dates in the series, but for some reason, very few have survived in such a high grade. Indeed, this one is just one of two PCGS graded examples in PR67 with just a single PR67+ graded higher.

Both sides of this GEM have a lovely iridescent patina with rich blue, rose, gold, and violet colors on both sides. The fields show off a wonderful watery reflection on the obverse, while the reverse has a blazing, bold, and blinding reflection that taken on its own would probably warrant a CAM designation. The strike is bold, and there are no distracting marks to be found anywhere. The eye appeal is very high end and extremely rare in such a fine state of preservation.

The Arrows at the date were added, as they had been two decades earlier, to signify a weight change. The coinage act of 1873 raised the silver content of the dime, quarter, and half dollar in an effort to absorb some of the silver that poured from the Comstock Lode in Nevada.

Finding fully struck examples of the 27-S dime is a serious challenge, especially in such a lofty state of preservation. To find one that not only has fully separated and rounded bands on the fasces, but also full hair and wing details on Liberty's portrait is a monumental occasion! This

blazing, brilliant, untoned example combines not just a full, exacting strike, but also exceptionally well preserved surfaces. A really cool pair of die cracks come together at the base of the neck, just to the left of the 1 in the date. The eye appeal is very high end and even if you are ultra picky, you will delight in this coin's visual and technical allure.

PCGS 18, NGC 2, CAC 5. The most recent example to sell in auction was the Grand Prix Collection coin, ex Bassano Collection, that sold in our March 2019 Regency Auction for \$18,800, which happens to be the current CAC CPG value. An incredible Proof Seated quarter! Regardless of date, this coin is just awesome! Truly an immaculate, SUPERB GEM 1887 quarter stopped us in our tracks when it came through. We have not stopped looking at it; really, it is nearly impossible to not sit and stare at the hypnotic mirrors!

Icy smooth, deeply mirrored fields offer exceptional clarity!

We have not seen such a visually impressive beauty in ages! The mirrors contrast brilliantly against the frosty, razor sharp design elements, imparting a dramatic cameo contrast that is exceptionally high end and bold. Framed in a dappled halo of amber, gold and variegated blues. The central areas are brilliant silver and untuned. All together, the mirrors, toning, strike, contrast all combine to create a masterpiece of Proof Seated coinage! We love this SUPERB GEM!

Only 710 Proofs were struck. PCGS 2, NGC 5, CAC 2. This is the only one in PR67+ CAM and we suspect it is both coins. This coin sold for \$9,106 in our September 2019 Regency Auction, clearly the Collectors Universe value of \$8,500 is too low. The Newman coin, which was PR68+ CAM NGC/CAC, is now a PCGS PR68 CAM CAC, and when it sold in November 2013, it brought a record \$41,125. A glorious coin that will delight any type or Seated quarter collector.

For a 1901 it is way above average for sure!

Amazing mirrors beam boldly from all over. They also have exceptional clarity, cleanliness, and of course offer an intense reflection. If you twirl the coin, the mirrors have a slight "liquid mercury/watery" look. Miss Liberty and the details are thickly frosted and have pinpoint sharp strikes. The eye appeal is totally fantastic!

ONLY 813 were minted. PCGS 8, NGC 16, CAC 11. The last auction record was for \$4,560 in April 2019. Prior to that a PCGS?CAC piece sold for \$5,040 in August /2018. The current Collectors Universe Value is \$5,750. We can not say enough how scarce ANY post 1900 PR Cameo is in true GEM. Think about this fact: PCGS has only graded 10 coins over its 30+ years of existence. That is ridiculously low. We strongly believe a coin like this makes a great "put away" piece as well a starring piece for any GEM Proof Barber collection.

WOW! What a STUNNING Proof Barber quarter! Legend Rare Coin Auctions is proud to offer this beautiful Proof Barber quarter! This coin looks like it was broken fresh out of a 2011 proof set, not a survivor of 109 years in this FLAWLESS, essentially perfect grade. Clearly worthy of its lofty designation, this coin is not just one of the finest 1911 quarters, but one of the FINEST of all Proof Barber quarters, 1892-1915! AMAZING in every way!

This coin is a reflective headlight! Deep, clear, bold, reflective mirrors shine as black in the light, with the fully frosted devices standing out in their white, silver frostiness. The mirrors look like they were just cut from a polished chrome bumper and the reliefs stand out with a dramatic effect. The cameo contrast is exceptionally bold for the date, and does border on a DCAM designation. Using a strong glass we can find not a single mark, line, fleck, or spot that takes away from the simply awe inspiring visual allure.

The 1927-S quarter boasts one of the LOWEST mintages of the entire series with just 396,000 struck. Not only is this date scarce in all Mint State grades, but is notorious for its pancake flat strike. This GEM is a very pleasing exception to how these typically come.

This is a particularly lustrous GEM example with a strong brilliance. Again, for the date, the strike is about as complete as you can realistically ask for.

Save for the slightest softness of Liberty's hairline and two of the brads on the shield, this coin is essentially fully struck up. There is a touch of a pale, pearlescence that gives this GEM a great look.

PCGS 48, NGC 21. The last one to sell brought \$9,988 back in September 2016 and the current PCGS Price Guide value is listed at at \$12,500. NOTE, more recently a PCGS MS64 sold for \$10,200 in February 2020. Seriously a strong contender for a great set. Keep in mind that a Full Head example is a five figure coin in the lowest Mint State grades, and in GEM, as here, approaches a \$200,000 price tag! 25C 1960 PCGS MS67

Bold, brilliant silver surfaces radiate with a strong, nearly reflective luster on both sides. Nicely struck and offering exceptional surface preservation, free of any serious contact or unsightly toning, this SUPERB GEM ranks very high on the PCGS Population Report.

PCGS 29, NGC 82. There are just four graded higher. While the most recent example sold for \$960, this coin sold for \$2,820 in February 2013. None of the four coins graded higher have ever sold in auction. This coin should sell for more than the \$850 listed in the PCGS Price Guide. Good luck!

OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

LOT 139**25C 1962 PCGS MS67+**

WOW! If you are looking to upgrade your Washington quarter set, take a look at this stunning, SUPERB 1962.

Attractive rainbow iridescent toning encircles the brilliant silver center of the obverse. Rich blue, green, and peach-rose-gold sit on top of each other in narrow stratified bands, before fading into a broader dusting of apricot-rose and sky-blue that is enlivened by a stunning mint

brilliance. The eye appeal is so high end, you can ignore the one or two teeny ticks that keep this from an even loftier grade.

PCGS 5, NGC 5. Only a single example has ever sold in auction realizing a record of \$26,400 in March 2019 and the current PCGS Price Guide value is \$26,500. We expect that bidding will be intense for this coin among the Registry Set crowd, and anyone working on the FINEST set will need to add this impressive SUPERB GEM to their sets. Good luck!

One of just two graded MS67+ and NONE FINER at PCGS, these mid-1970s vintage clad quarters were struck in huge quantity and went into circulation. The roll hoarding craze of the 1950s and 1960s was over, so fewer quantities were saved in pristine grades. The present SUPERB example is TOP POP and has a gorgeous visual allure. Delicately dusted with iridescent toning on both sides of this virtually perfect GEM. Sharply struck and devoid of all but tiniest of ticks, this coin has a great look.

PCGS 2, NGC 0. NONE have sold in auction, the Collectors Universe value is \$2,000. If you are working on the FINEST of modern Washington quarters, you need to bid fiercely to get your hands on this important coin. Don't let the opportunity pass you by.

LOT 142**50C 1875-CC PCGS MS65**

Sharp and clean, this is a real GEM 75-CC half dollar housed in an ancient green tag PCGS holder. Satiny lustrous surfaces glow from below a layer of somewhat questionable pearly-dove-silver patina that shows delicate touches of gold throughout. The definition is sharp throughout, with boldly struck up drapery lines and eagle feathers on both sides. There are a few minor traces of contact that are hidden throughout, but the surfaces seem to be cleaner overall than the Battle Born PCGS/CAC MS65, which is the most recent example to sell in auction. Despite the slightly "off" toning, the eye appeal is quite nice and presents very well.

PCGS 8, NGC 4. Only two PCGS MS65s have ever sold in auction, both in 2012, the Battle Born coin realizing \$8,625 and the current PCGS Price Guide value is listed at \$9,500. Just three coins are graded finer, one each in MS65+, MS66, and MS66+. The last MS66 was the Gardner coin that sold for \$35,250 in June 2014. An important opportunity for the specialist collector, which will see spirited bidding. Good luck.

**LOT 143****50C 1887 PCGS MS66 CAC**

Like so many high grade examples of this low mintage date, the highly lustrous fields show off a bold reflection, and this one is oh, so close to a full PL designation. Totally original and pretty patina grace the highly lustrous surfaces. The details are crisp and the surfaces are clean. The eye appeal is impressive for this GEM survivor from an original mintage of only 5,000.

PCGS 14, NGC 9, CAC 6. Only two PCGS/CAC examples have ever sold in auction, one for \$6,300 and the other for \$3,600. The current CAC CPG value is \$5,500 and the Collectors Universe value is listed at \$6,000. Just eight coins are graded finer, making this GEM a worthy contender for a great Seated half dollar set or type collection.

The obverse is toned a delightful combination of pale shades of blue, violet, red, and gold; the reverse features a more prominent deep blue at the center transitioning to russet at the rims. An attractive and pleasing high grade example from a proof mintage of 1,039.

PCGS 37, NGC 40. The last NGC PF65 sold at auction brought \$2,040 in September 2018 and the current Collectors Universe value is \$2,500. A handsome coin for the collector of proof Seated type.

A lovely, frosty, mint fresh looking PQ GEM. A strong, untuned silver luster blooms all over with a satiny vibrance. The details are sharply struck up and the quality is clean and generally very pleasing, even though we note a minor scuff on the cheek. An example that ranks high on the PCGS Population Report and from a lower mintage of 695,080.

PCGS 13, NGC 5. Its been four years since a non-CAC PCGS example sold in auction, more recently CAC-approved examples have brought \$5,040, in line with the current Collectors Universe value of \$5,000. A truly SUPERB example! Magnificent reflective fields have bold flash and beam with a strong clarity throughout the fields. The devices are thickly frosted and stand out nicely against the icy-glassy mirrors. Both sides are deeply toned but they do not obscure the intensity of the flashy Proof surfaces. The eye appeal is excellent.

Only 762 Proofs were struck. PCGS 7, NGC 13, CAC 5. This coin represents the last two auction sales, selling for \$9,988 in April 2014 and \$6,300 in June 2020 and the CAC CPG value is \$5,940. We have said for ages that the market has unfairly treated Proof Barbers and with only three finer in the designation, this impressive coin should bring a strong price. LOT 150

50C 1920-S PCGS MS66

An unbelievable quality example of this conditionally VERY RARE early date Walker. Though the mintage was fairly generous, with over 4.6 million struck, a steep recession in 1921 and the Great Depression that began in 1929, led to the majority disappearing into circulation where they would remain for ages. In the Premium GEM grade offered here and finer, only 20 have ever been graded between PCGS and NGC combined! Clearly there is duplication in those figures!

A thick, satiny mint luster is aglow with an unmolested, perfectly clean frosty sheen. Only with the aid of a strong glass do you find any traces of contact, anywhere on the surfaces, mostly hidden away from view in non-focal point areas of the design. Generally well struck on both sides, just a slight touch of bluntness of can be found in areas, but is typical for the date. The eye appeal is exceptional and we really do not see any reason CAC did not "bean" this beautiful GEM, it is a mystery to us!

PCGS 6, NGC 10. The last two examples sold in auction were CAC approved; this coin was the last non-CAC example to sell realizing \$35,250 in the 2016 ANA auction. The current Collectors Universe value is \$50,000. Just two PCGS coins have ever graded finer, both 66+ and we sold the only one in our January 2019 Regency Auction for a world record \$96,938. 50C 1948 PCGS MS67 FBL

With just a single MS67+ FBL graded higher, this is a very important example of this series' first year issue. A SUPERB GEM that is destined for a very high ranking PCGS Registry Set. A strong mint brilliance radiates boldly across both obverse and reverse. As the surfaces are twirled and tilted in a light, a subtle opalescent, pastel iridescent toning comes to life. Sharply struck devices stand out on the smooth, essentially flawless fields; a strong glass reveals a tiny tick or two on the Liberty Bell, none of which are distracting or affect the wonderful eye appeal.

PCGS 29, NGC 9. Very similar in look to the one we sold in September 2018 for \$3,642, more recent examples have sold in the \$1,920 to \$2,340 range. The current PCGS Price Guide value is listed at \$3,000. The single finest MS67+ FBL sold five years ago in our September 2015 Regency Auction for nearly \$25,000. An incredible SUPERB GEM boasting stunning original color on both sides. This coin's toning and eye appeal make it very hard to look away. Each angle reveals a new view and the strong, flashy cartwheel luster brings out the stunning visual allure. A splash of dramatic rainbow colors glide along GOD WE TRUST and form a frame around the untuned shoulder and field around 195. Surrounding that is a speckled iridescent toning that delights the eye. The reverse is likewise a speckled, dappled iridescent patina in the pattern of an ancient fingerprint. Sharply struck and boldly lustrous, the surfaces are clean and free of any distracting marks.

PCGS 25, NGC 6. There is a wide range of APRS. The most recent sold for \$3,000 in June 2020, but prior to that, one sold in March 2019 for \$4,800 and one sold in April 2018 for \$4,080. The current PCGS Price Guide value is listed at \$5,250. NOTE: the last MS67+ FBL sold for nearly \$40,000 in the 2018 ANA auction, so we suspect this beautiful and SUPERB example will bring a very strong price when the hammer falls. Good luck!

Franklin half dollar collectors take note of this important opportunity! Presented here is one of the dozen **FINEST** graded examples of this conditionally rare date; just eight are graded MS67 FBL and there are just three finer in MS67+ FBL.

The present **SUPERB** GEM is highly lustrous, the surfaces highlight a gorgeous frame of lemon and tangerine-gold on the obverse and sharply struck, frosty devices on both sides. Only under intense magnification with the aid of a strong glass does a few miniscule tiny ticks are seen, but these have zero impact on the wonderful eye appeal. A truly **SUPERB** example, this GEM belongs in a great set.

PCGS 8, NGC 5. There has not been a non-CAC example sold in auction since the 2016 ANA auction where one brought just shy of \$10,000. More recently a CAC approved example realized \$26,400 in the 2019 ANA auction. The current PCGS Price Guide value is listed at \$15,000. **NONE** of the three MS67+ FBLs that have been graded finer have ever sold in auction, making this a prime candidate for one of the **FINEST** Franklin half dollar sets on the PCGS Registry.

Tied for FINEST graded at PCGS, this is a lovely 57-D with soft, iridescent toning on both sides. Sharply struck up, this MS67 FBL has clean surfaces overall. We have carefully looked at this coin through a strong glass and do not understand what precluded a CAC approval. Oh, well, we still like it as it has good technical, as well as visual qualities.

PCGS 29, NGC 11. NONE ARE FINER at PCGS. Prior to the one that sold in April 2020 for \$1,800, one sold in October 2019 for \$4,560. The current PCGS Price Guide value is listed at \$3,000. With nothing finer, this coin is destined for a superb set.

50C 1958-D PCGS MS67 FBL CAC

Lovely Mint Set toning gives this SUPERB GEM a wonderful look. Light freckled olive-tan-gold is framed by a band of magenta-orange and emerald along the left periphery. Sharply struck up, the details of the Liberty Bell are quite bold and the eye appeal is unmarred by any serious ticks or marks.

PCGS 99, NGC 27, CAC 60. RARE any finer with just 11 finer in MS67+ FBL. We sold a similar looking one in September 2019 for \$1,087 and the current PCGS Price Guide value is \$1,125. The last MS67+ FBL to sell in auction brought \$7,344 in our March 2019. Seems like this attractive SUPERB GEM is a great value.

LOT 210

50C 1959 PCGS MS66+ FBL CAC

Extremely difficult to find in this lofty state of preservation and with just two graded finer, this date is virtually unobtainable in SUPERB grade. This totally original Premium GEM offers a really cool look. Splashes of clover, emerald, and olive green blend with coppery-peach, apricot-rose, lemon-yellow, and lilac-dove patina have an almost Pollack-esque pattern. The reverse shows freckles of russet scattered over brilliantly lustrous surfaces. The luster is bold and and satiny with a rolling cartwheel finish that brings out the subtle differences in the shades. Sharply struck the lettering of the Liberty Bell, as well as the lines are fully rendered and nice.

PCGS 112, NGC 27, CAC 18. Only 16 are graded MS66+ FBL. This coin realized \$4,935 in September 2016, and the most recent example sold in our May 2019 Regency Auction for \$4,700. The current PCGS Price Guide value is \$6,000 and with just two graded finer, both MS67 FBL, this date is EXCESSIVELY RARE any finer, and neither has ever sold in auction. This is about as fine as any specialist collector can ever expect to buy in today's market. We anticipate very strong bidding here. Good luck!

Rich, old envelope toning blankets both sides of this impeccable GEM. Boldly lustrous surfaces enliven the earthy-pastel greens, blues, golds, and roses. Though we note a few minor ticks, they do not encumber the stunning eye appeal.

PCGS 180, NGC 47. The current PCGS Price Guide value is listed at \$525, and jumps to \$1,750 in MS67 FBL. A great looking coin, worthy of a really carefully chosen set.

50C 1960 PCGS MS66+

Vividly lustrous surfaces have a beaming, brilliant flash throughout, enlivening the delicately toned surfaces. A rich frame of color yields to iridescent centers on the obverse, while the reverse has a blush of the clearest blue. Oh so close to FBL, this exceptional coin has a great eye appeal.

PCGS 4, NGC 0. The last non-CAC example sold in 2016, and the current PCGS Price Guide value is \$1,000, but with just one finer in the designation, we think this coin could sell for more.

LOT 213

50C 1960 PCGS MS66+ FBL CAC

The 1960 half dollar, like other denominations of the era, was very weakly struck, examples offering the Full Bell Line designation are quite scarce, and at the grade level offered here, RARE. In fact MS66+ FBL is a condition census grade. The present PQ GEM is incredibly lustrous and well struck. The obverse is gently dusted with a dappled blend of earthy tones, olive, rust-orange, and slate. The eye appeal of this sharp and totally original GEM is excellent.

PCGS 112, NGC 7, CAC 18. There are just six in MS66+ FBL and two finer. The most recent example to sell in auction brought \$2,703 in our September 2019 Regency Auction and the current Collectors Universe value is \$1,950. Keep in mind that the only MS67 FBL to ever sell in auction realized \$28,200 four years ago. Seems like this coin presents a great value in comparison.

50C 1962-D PCGS MS66 FBL CAC

A high grade survivor of this conditionally rare date Franklin. The 62-D is usually weakly struck and/or hacked up, and as such, this date is VERY RARE in such a high grade. Distinct reflective accents in the lustrous obverse fields flash boldly while the reverse is satiny. A blush of original Mint Set toning graces the sharply struck devices and generally high quality surfaces.

PCGS 50, NGC 6, CAC 7. The most recent PCGS MS66FBL CAC sold in July 2019 for \$1,740, but the average of the last 10 APRs is \$2,152. The current Collectors Universe value is listed at \$2,050. There are just three graded finer, all MS66+ FBL, and NONE HAVE SOLD IN AUCTION, making this one of the FINEST available on the market today. Good luck.

LOT 218**50C 1963 NGC MS66 FBL**

Among the **FINEST** graded of this conditionally **RARE** date, this 1963 is one of only three in MS66 FBL graded by NGC and just a single MS66+ FBL is graded finer at the service.

Exceptionally bold, brilliant, radiant mint luster blooms and beams all over, highlighting blast white silver surfaces. Sharply struck and very clean, the eye appeal is very nice over all, with a "just struck" look.

PCGS 6, NGC 3. No NGC-graded example has ever sold in auction, but PCGS coins have sold in a wide range, the most recent for \$6,600 but going for as much as \$28,200. The current Collectors Universe value is listed at \$20,000. We are estimating this **SUPERB GEM** conservatively, and will let the bidders figure out what it is worth! We anticipate fierce bidding for sure.

**LOT 219****50C 1963-D PCGS MS66 FBL**

Nearly perfect. Satiny luster shines boldly and brilliantly on both sides, enlivening a soft, pastel iridescent hue. Pale gold and clear blue accents the exceptionally lustrous obverse. Well struck and quite pleasing to the eye, we are not sure why CAC did not endorse this **GEM**.

PCGS 130, NGC 28. The last two sold for \$810 and \$930, and the current Collectors Universe value is listed at \$800. PCGS has graded just 10 finer, 9 in 66+ FBL and a single MS67 FBL as finest.

One of the top ten graded by PCGS, bested by just a single MS67 FBL. Exhibiting attractive toning across the obverse in shades of sea-green, magenta, gold, and apricot-rose on the obverse, while the reverse is blast white. Well struck and generally clean, this borderline superb example has a great look that would delight any collector.

PCGS 9, NGC 4. This **GEM** sold in the 2016 ANA auction for \$4,700, and the other two more recent APRs are \$2,520 and \$7,200. The current PCGS Price Guide value is listed at \$5,250 and the value jumps to \$22,500 for the MS67 FBL which has never sold in auction. Good luck.

1944-S PCGS TYPE SET

Here is a very cool offering, a fresh, and totally original 1944-S Type Set. Clearly someone carefully stored these five GEMs together since the time of issue, where the silver coins were able to obtain a rich, deep, multi-colored palette of color that is well matched.

The cent is graded PCGS MS67 RD and is very nicely lustrous and has a full original mint red color.

The nickel is PCGS MS65 and has a warm pastel iridescent toning that deepens at the rims.

The dime is PCGS MS67 and is a MOOSE! WOW what a stunning blue, green, violet, and pink toning on both sides. AMAZING.

The quarter is PCGS MS66+ and is deeply toned and brilliantly lustrous.

The half dollar is PCGS MS64+ and like the dime, this coin is truly SPECTACULAR! WOW!

\$1 1872 NGC PF66 UCAM

WHOA! What blazing, brilliant mirrors beam from all over on this exceptional Ultra Cameo Seated dollar Proof. One of the highest numerically graded regardless of designation, NGC has graded just two in PR67 (non CAM) any higher.

Possessing a stunning contrast on both sides, the razor sharp devices are fully struck up with a thick, creamy mint frost that stands out like a desert island in a sea of deep, beaming mirrors that provides very strong contrast. The flashy watery brilliance is truly very bold. Free of anything but minor die polish lines that can be seen in the fields. The eye appeal is very high end and wonderful.

Only 950 Proofs were struck. PCGS 0, NGC 3. None have sold since April 2013 when one sold for \$23,500, and prior to that, one sold for \$38,500 back in the 2006 FUN auction. That these appear in auction only once every seven years, this is a VERY IMPORTANT opportunity for the advanced collector. We can see the estimate being far surpassed when the hammer finally drops on this one.

What a great looking centennial year trade dollar, and this one is one of the **FINEST** examples. Despite a mintage of 5,227,000, there are currently, including duplicate submissions, fewer than 1,200 Mint State examples graded by PCGS and NGC combined. By the time you come to the GEM category, the population thins to a combined 31 in MS65 and MS66 between PCGS and NGC! In MS65, this is the **ONLY** one approved by CAC.

The surfaces are silky smooth and gleam all over with a bold satin luster that is exceptionally brilliant. Some delicate dappled gold, olive, tan, and russet patina clings to the peripheral devices accenting the razor sharp definition imparted by an exacting blow from the dies. Every detail shows fully and completely, from the central areas out to the peripheries. This GEM is an **AMAZING** survivor and worthy of the **FINEST** of collections. To view this exceptional and totally original Trade dollar is to fall in love with it!

PCGS 8, NGC 19, CAC 1. Just a single MS66 has graded finer at PCGS, a coin that has never sold in auction. We can see this **MAGNIFICENT GEM** selling for a very strong bid, clearly the Collector's Universe value is way off! This coin sold in March 2018 for \$16,800, and the CAC CPG value is \$12,100. PCGS MS65+ CAC

Despite a fairly large mintage of over 9.5 million, the 1877-S Trade dollar is quite **RARE** in such a fine state of preservation, with fewer than ten coins graded higher at PCGS. This coin is well worthy of its lofty + designation.

This highly lustrous GEM radiates a vibrance reminiscent of an 1880-S Morgan dollar! The surfaces have a swirling cartwheel luster with

BOLD hints of Prooflike flash that, especially on the reverse contrasts nicely with the razor sharp devices. There is a good amount of frost on the devices and the fields are very clean, with just a trivial contact mark or two noted for accuracy. Mostly untuned, the brilliant surfaces show just the slightest glint of clear gold that comes out in the light.

PCGS 38, NGC 27, CAC 15. There are just 8 in MS65+ and nine are graded higher. This GEM brought \$11,750 in our December 2019 sale of the Valley View Collection and the current PCGS Price Guide value is \$9,500. This brilliant, untuned, GEM is worthy of an even stronger bid. A great coin for type or date purposes, this one will see stiff bidding competition when the hammer falls.

THE CARSON CITY SLEEPER DATE COLLECTION

The 1880-CC dollar saw a mintage of 591,000. While low in relative terms to other Morgan dollar issues, many were stored in treasury vaults and not released to the numismatic community until the 1960s. There are a number of very interesting variations, which include various overdates and reverse design variations. The selection offered here is extensive in terms of grades, and shows a two of these important

variations, which in relation to regular 1880-CC dollars are quite scarce, and somewhat underappreciated in the marketplace. Needed for extended Registry Sets which include the major varieties, we anticipate demand for these will go up as more collectors are introduced to the interesting varieties. This collection includes the 1880-CC 80/79 with reverse of 1878 and the 1880-CC 8/7 with the reverse of 1878.

OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. LOT 243**\$1 1878-CC PCGS MS64+ CAC**

This incredible near-GEM 78-CC Morgan dollar is from our February 2015 Regency Auction, and is from the David Hall Collection.

A rival to the famed group of 78-CCs from Brian Sonnier, this marvelous coin has swirling bands of iridescent color which rates a 9+ on our color scale. Magenta, emerald, clover, tangerine, gold, and violet tones boldly come to life as you rotate the lustrous surfaces in a light. Sharply struck throughout the design types. Were it not for some trivial contact on the cheek, this coin would have easily graded higher.

Disregard the population and price guide numbers, this coin realized a very strong \$5,758 on an estimate of \$2,500 to \$2,750. This is clearly a coin that would have fit nicely in any amazing collection of Toned Dollars: Sunnywood, Northern Lights, or Roadrunner. Bid accordingly.

LOT 244**\$1 1878-CC PCGS MS66+ CAC**

A gorgeous Premium Quality, borderline SUPERB GEM 78-CC dollar. The magnificent obverse toning suggests its origins lay in the many bags of Carson City dollars that were stored in Treasury Department vaults that were released in the 1960s and 1970s.

A bold, sweeping cartwheel luster rolls vividly on both sides of this vivacious first year of the Morgan dollar series. The obverse is awash in a gorgeous melange of pastel teal, plum, and golden hues that radiate all over. Twirl the coin in a light, and the subtle differences in the colors come to life in a brilliant manner. We rate the color a 8.5 on our ten-point color scale. The devices are sharply struck up and are very frosty. Both sides are generally clean, and were it not for a touch of contact hidden above Liberty's cap, hidden by Mother Nature's wonderful artistry, this coin might have graded even higher.

Authorized by the Bland-Allison Act, which the mint required to strike millions of silver dollars, the Morgan dollar was born. From 1878-1904 hundreds of millions of silver dollars were struck at four mints: Philadelphia, Carson City, New Orleans, and San Francisco. The dollars from Carson City, with its famed CC mintmark, are among the most popular coins collected today. With the release of hundreds of thousands of coins in the 1960s and 1970s from the GSA hoards, once extremely scarce dates are now available for collectors.

PCGS 407, NGC 204, CAC 53. PCGS has graded 53 in MS66+ and just seven finer. The most recent example to sell in auction realized \$10,800 in April 2020. Back in the 2016 ANA auction, this gorgeously toned GEM brought \$15,275. The current Collectors Universe value is listed at \$12,500. A special 78-CC Morgan that is worthy of a world class toner collection. NOTE: NONE of the MS67s graded (Pop. 7) have ever received CAC endorsement, and none have sold since 2009! We anticipate a fierce round of bidding when this magnificent Morgan dollar crosses the block.

A high quality, very pretty, double sided old envelope toner. Delightful blue-teal and orange-tan is draped across the obverse, while the reverse shows that same teal-blue tone and a vivid orange-gold before yielding to brilliant silver center. The luster is bold, bringing out the subtle shades in the lovely, original patina. The reverse shows some semi-reflective accents, which make the sharply struck up devices stand out. The eye appeal is really neat for sure!

Whoa! This is an incredible SUPERB GEM Morgan dollar! If you seek only a single example for your collection, look no further than this KILLER piece!

This coin's quality is insane! Intense, radial cartwheel luster is distinctly prooflike. When you twirl the coin, the mirrors have that "water" proof type of a rolling wave. Miss Liberty and all the devices are sharply struck and fully frosted, creating a beautiful contrast between the reliefs and fields. A touch of russet toning seen at UNUM is fantastic, adding to the eye appeal. The cheek and fields are exceptionally clean, free of any distracting marks or ticks. The eye appeal is AWESOME!

Simply STUNNING! WOW! A very high end 81-CC Morgan dollar in impeccable SUPERB GEM condition; one of the FINEST we have ever seen!

Not only is the technical quality all there and then some, the original toning on the obverse takes it over the edge to a real world class example. Blazing mint luster swirls all over both sides of this impressive survivor. Delicate iridescent toning, offering shades of emerald and olive-green hues, that blend to sky-blue, pale gold, and soft peach, while at certain angles some lilac and rose shades come to the fore. The bold luster brings out the subtle variants in the iridescent hues. The reverse is ringed by a touch of color. Blistering, white-hot brilliant luster blazes boldly across the surfaces on this highly reflective Prooflike GEM that borders on the SUPERB grade.

Tied for second HIGHEST graded in the PL designation. Indeed were it not for a couple of very tiny marks that are exaggerated by the fragile nature of the frosty-finished devices and polished reflection of the fields, we have no doubt it would be a contender for CAC approval. We like the look of this well struck beauty quite a bit! While the mintage was low, only 228,000 were struck, large quantities were saved at the time of issue in treasury vaults. Until the 1930s, the 85-CC was a major rarity, but slowly some were released through dealers such as John Zug. In 1955, several bags came out of other Treasury vaults, and again a few probably came out in 1962-64, before a large number (cited as 148,285 total that were sold by the GSA from 1972-74 and again in 1980. That these were not melted and lost to the melting pots in 1918 is a wonder and a joy for collectors today, especially when they have the OUTSTANDING eye appeal as this one!

A fully BU example of this very conditionally difficult date. Despite a mintage in excess of 10,700,000, precious few were saved in Mint State grade. The bulk of the 86-O dollars were likely stored in mint bags, which were melted en masse under the provisions of the 1918 Pittman Act. As such, nearly 35 years of operations, PCGS has graded fewer than 2,600 examples in ALL Mint State grades, which no doubt includes duplicate submissions. The present coin is rich with a bold satiny mint frost. Some very minor traces of contact are seen on the pearly-silver surfaces. The strike is good, as is the eye appeal.

We note the lightest of pale gold that is delicately dusted on the surfaces, imparting an outstanding eye appeal.

PCGS 8, NGC 5. The only NGC-graded example to ever sell in auction brought \$14,375 two DECADES ago in October 2000! The current Collectors Universe value is listed at \$30,000 and we think this GEM will bring a VERY STRONG price. Keep in mind that PCGS-graded coins are bringing \$24,000! Good luck.

**LOT 275****\$1 1899-O PCGS MS67 CAC**

Extraordinary quality for the issue! Bold, rolling cartwheels flow over impressively lustrous surfaces. The devices are well struck with frosty accents that blend with satiny brilliance. Aside from the tiniest, most insignificant trace of contact, the surfaces are ultra smooth and uber-clean.

PCGS 213, NGC 117, CAC 78. The most recent example sold for \$3,480 in February 2020 and we sold one in September 2019 for \$3,408. The current CAC CPG value is listed at \$4,060. RARE any finer, with just 35 in MS67+ and a single MS68 graded finer at PCGS. This one is worthy of strong contention.

LOT 276

\$1 1900 PCGS MS65 DMPL CAC

What an amazing coin! 1900 DMPL's generally do not look like 1880's-and this coin does!

Full 8"++ mirrors dazzle you from all over. At first glance they resemble proof mirrors. There re just a few trivial (and we mean trivial) ticks to be found. With a glass you can see some light die polishing (normal to the date). The contrast is bold. Miss Liberty and all of the details are thickly frosted and are fully struck. The eye appeal is jaw dropping!

PCGS 2, NGC 2, CAC 1. This coin last in August 2019 for \$48,000. Prior to that, it sold in a July 2008 sale for 51,750. In this market, we can see this coins price record being far surpassed! If you collect better DMPL's, for sure this coin is a once in a decade or so opportunity!

PCGS# 97265 • ESTIMATE: \$45,000+

LOT 277**\$1 1900-O/CC PCGS MS66+ CAC**

This coin is as close to MS67 as you can get! If it were any 80-S it possibly would have made MS67 (NO promises). We have seen a few of these, we clearly rank this coin as one of the VERY BEST! Just two have ever graded finer.

Remarkable surfaces are incredibly clean. There is a small scrape you need a strong glass to see hidden on the reverse. Its probably what kept this coin from a full

MS67. An exceptional luster beams boldly from all over. Both sides are an original white. There are no spots or discolorations. Miss Liberty and the details are fully struck. You do NOT need a glass to see the O/CC. Also, her cheek will please any fussy collector. The eye appeal is superb!

PCGS 165, NGC 14, CAC 40. There are 22 in MS66+ and just 2 finer. We sold the last three examples ranging from \$7,638 to \$8,519 and the current PCGS Price Guide value is listed at \$11,500. The MS67 realized \$37,375 in August 2011. This is a very important Morgan for the collector that will see strong bidding and in a fantastic collection.

PCGS# 7268 • ESTIMATE: \$7,500+

**LOT 278****\$1 1901-S PCGS MS64**

The 01-S is scarce in GEM grades, making MS64 a great grade level for most collectors. Lustrous surfaces have a satiny texture that flows evenly across the surfaces on both obverse and reverse. Probably stored in an album, there is a dappled band of amber and royal blue at the obverse rim, and hints of the same on the reverse. Light lines on the cheek are likely "slide" marks from the album, but are well hidden under the toning.

PCGS 1053, NGC 604. The current PCGS Price Guide value is \$1,350 and the most recent examples to sell brought between \$1,000 and \$1,100. Very scarce in GEM.

LOT 279**\$1 1903 NGC MS64 DMPL****NEAR-GEM DEEP MIRROR PROOFLIKE DOLLAR**

Boldly mirrored surfaces please the eye with a dazzling display of reflectivity. Mostly white, with traces of light golden toning towards the rims. Deep prooflike Morgans are more widely seen from the San Francisco Mint. Philadelphia Mint examples are decidedly scarcer, and 1903 is downright rare.

PCGS 1, NGC 10. Listed in the Collectors Universe Price Guide at \$4,500. No auction records in the last 3 years, and only 3 records of sale in the last 8 years. DMPLs of this date are rare and MS65 DMPLs have sold at auction for more than \$9,000 so we expect this coin will see strong bidding.

PCGS# 97285 • ESTIMATE: \$2,800+

LOT 280**\$1 1903-O PCGS MS66+ CAC**

A scarce double sided toned GEM example of this former key date issue. Both sides are awash in a classic blue and rose blend that is brought to life by a vivid luster. Sharply struck for a New Orleans dollar. The surfaces are virtually without flaw on both sides, this exceptional looking coin is not so common with this kind of visual effect.

PCGS 911, NGC 365, CAC 211. There are 108 graded in MS66+. The most recent examples sold in auction realized in the \$1,500 range and the current PCGS Price Guide value is listed at \$1,650.

While common in lower Mint State grades, the 03-O is still RARE any finer, especially with color. Bid accordingly.

PCGS# 7286 • ESTIMATE: \$1,500+

LOT 281**\$1 1903-S MICRO S. VAM****2. PCGS AU53**

A very important and popular Top 100 variety and this one ranks high up on the PCGS Population Report. Only two examples have ever graded Mint State, and AUs are quite RARE. Clearly the majority of the issue went straight into circulation. Created when the die sinker used the wrong sized mint mark punch (the size S used on the quarter).

The surfaces retain quite a bit of luster with a hint of flash in the protected areas. Light friction is seen on the surfaces, but there are no singularly distracting marks or lines of any kind. The eye appeal is quite nice for the AU53 grade.

PCGS 9, NGC 4. The most recent example to sell in auction was CAC approved, realizing \$8,519 in our January 2019 Regency Auction and the current PCGS Price Guide value is listed at \$10,000. As said, this variety is VERY RARE any finer, PCGS has graded just five in AU55, three in AU58, and one each in MS62 and MS65. An important opportunity for ANY advanced Morgan dollar collector that cannot, nor should be missed. DO NOT let this coin pass you by!

An impressive GEM example of this conditionally challenging date. Offering a bold, brilliant luster, this coin is bright and flashy with a delicate glaze of gold toning. Fully lustrous and attractive, this sharply struck 04-S has very pleasing technical and visual qualities. VERY RARE in this grade with CAC approval.

PCGS 156, NGC 29, CAC

**LOT 283****\$1 1921-D MORGAN. PCGS MS66**

The 21-D is the first and ONLY Denver mint Morgan dollar, and like the other 1921 Morgans, they did not tone the way earlier dates did. The present PQ GEM is a very happy exception to that! The obverse is awash in a very patriotic melange of dappled blues and reds with speckled untuned silver areas that sparkle in the light. The color rates an 8 overall, higher considering the date, on our 10-point scale. The reverse is flashy with hints of reflection on the generally untuned fields. The eye appeal is great and we do not understand what precluded a CAC approval on this one! We do not agree with them.

PCGS 516, NGC 296. This one should bring around the same as the CAC approved toner from the A.W. Collection we sold in July 2017, which realized \$1,293. Again, this is a date that rarely comes with any kind of attractive toning, and will see strong bidding for sure. Scarce finer.

PCGS# 7298 • ESTIMATE: \$800+

LOT 284**\$1 1921-D MORGAN. PCGS MS66+ CAC**

A truly noteworthy GEM example of this only Denver mint issue, totally unlike the typical 21-D seen. Offering exceptional quality, both technical and visual, this beauty is a real standout! Vivacious and brilliant luster back-lights a variegated blend of blue, crimson, and peach-gold hues, which blanket over the obverse and frame the reverse. We rate the color an 8.5+ on our 10-point color scale overall, though for the date, it rates higher, as 1921 Morgan dollars did not tone the same way as the earlier, 1878-1904, dates. The devices are sharp and the surfaces clean. A challenging date in any SUPERB Mint State grade, this PQ GEM is a special coin indeed!

PCGS 617, NGC 319, CAC 178. There are 99 in MS66+. The most recent example, a blast white coin, sold for \$5,640 in April 2020, and there really is a wide range of APRs for PCGS MS66+ CAC examples. Fresh to the market, this one has not sold in over six years. We expect it to sell for a bid in excess of the current Collectors Universe value of \$2,800. Only 18 are graded finer, and those are five figure rarities. Bound for a great set of toners--don't let this opportunity pass you by!

THE MCNAUGHT COLLECTION

The McNaught Collection comes to us from a longtime collector who has been building this set over several years. After originally collecting Bullion, the McNaught Collector began purchasing toned Morgan Dollars after becoming fascinated by the way nature adds a myriad of colors to coins that are left sitting undisturbed in canvas bags, sometimes for over 100 years. The collection he built focused specifically on end roll toners, with a critical eye for finding examples to match the quality of his set.

Also included are some spectacular reverse toners that would fit in any world class collection of Toned Morgan Dollars.

Now that our consignor is older, he is ready to test the market, and share his passion for end roll toners with other collectors. He hopes that whoever owns them next has the same appreciation for Mother Nature's efforts as he does. Legend Rare Coin Auctions presents, the McNaught Collection!

An incredible GEM 79-S dollar. What a great bag toned GEM! The reverse sat against the canvas bag for ages where it was imbued with with a delightful melange of teal, cobalt, tangerine, and violet with tinges of emerald, olive, and lemon yellow. The toning "dots" from the canvas bag makes the toning even more desirable, and we rate the color a 9+ on our 10-point color scale. We expect very strong bidding for this impressive and lustrous GEM. Intense, beaming, brilliant cartwheel luster rolls vibrantly all over. The right side of the obverse is toned in a delightful blend of crimson, pale azure, gold, and mingled shades of apricot-tangerine-rose. Though covering less than half the surface, the toning does rate an 8+ on our color scale. The surfaces are exceptionally clean and the devices are frosty and crisply struck up. A borderline SUPERB coin that is nicer than some we have seen in MS67 holders. Worth a strong bid for sure.

\$1 1880-S PCGS MS67 CAC

Intense, brilliant cartwheel luster swirls vividly and boldly across the surfaces on both sides. The obverse is richly toned, offering a beautiful array of bold rainbow colors, ranging from a pale rose-tan fading to emerald, azure, salmon-pink, magenta, soft orange-gold, icy-blue, an rusty-orange that covers about 60% of the surfaces before yielding to an intense untuned silver, clearly where another dollar sat on the surface in a bag. We rate the color as a 9 on our 10-point scale. The devices are incredibly crisp and sharp, with a thick frost. A strong glass reveals some very minor contact, hidden under the toning, but the color does not detract from the absolutely stunning visual allure. WOW!

Essentially a full Prooflike flash to the luster accents the wonderful toning at the lower obverse. Shades of blue and orange combine with hints of green and rose, giving this SUPERB GEM a great visual allure. Very few, if any ticks can be seen without the aid of a glass. The eye appeal is quite nice overall to be sure, we don't see why PCGS did not give this coin a PL designation.

The value of this coin is certainly derived from the toning which would rate an 8 on our scale, and it should bring more than the \$650 value assigned by Collectors Universe for a generic MS67.

A spectacular double sided toner! WOW! The colors really captivate and mesmerize the viewer's gaze when rotated in a light. The frosty/satiny luster on the obverse has a glowing sheen with a pearly texture that amplifies a swirling blend of tangerine, lemon-yellow, rosy-peach, magenta, lilac, and teal hues. The reverse has a blazing silver luster that rolls boldly with vivid cartwheels. The reverse possesses parallel vertical bars of color, showing teal, cobalt, crimson, orange, and gold tones. We rate the obverse toning an 8.5+ and the reverse a 9 on our 10-point color scale. This marvelous and colorful SUPERB GEM just really speaks to us. The obverse is nicely struck, though showing some minor bluntness of the hair curls and the devices are more satiny than frosty. \$1 1884-O PCGS MS64+ CAC

A stunning end roll toner which we sold as lot 157 in our October 2015 Regency Auction, where it was described as:

EX SONNIER

End roll toning on the obverse in neon folds from each paper end, forming a pinwheel pattern. The colors are extraordinary with deep blue and neon green spikes that fade into crimson and vibrant gold shades. The first paper fold on the end offers the least color, and that is located from Miss Liberty's chin to the first star on the right, and this area shows more silver brilliance with a dash of pale yellow. The reverse is brilliant and untuned. As always, these toned Morgans are difficult to describe and are best evaluated in hand where the intensity of the colors, depth and arrangement can be appreciated under a light. The complexity varies from coin to coin along with the varying shades and intensity. This example really stands out as most toned Morgans developed their resplendent hues from canvas bags in which they were stored for decades, but this one was clearly an "end of the roll" coin. You'll always be able to amuse your friends with the splendid intensity of the toning on this glorious dollar.

This beauty brought nearly \$2,000 in that sale, and today, it should see spirited bidding that will bring it to a level close to or exceeding that level!

After all the major collections of toned Morgan dollars, this is a toning pattern we have not offered with any frequency. Rich rim toning and traces of an ancient fingerprint are tell tale signs of very long term album storage. Unmolested GEM quality surfaces are enlivened by a bold, strong luster, which brings out the varied hues imparted by the album. The obverse peripheries show a coppery-orange-gold that begins at about 7:00 and goes to about 12:00, fading inward to a dusting of the slightest pale apricot-gold. From the rim at about 2:00 to 7:00 the color is a melange of clover, violet, magenta, cobalt, crimson, and gold. The reverse has a concentric pattern of blue and gold. As expected for the lofty grade, there are only a small number of very minor ticks that we note for full disclosure; all of these are well hidden and do not affect the superb eye appeal at all! Simply exceptional--WOW!

PCGS 51, NGC 1. While the two most recent examples sold in 2019 for \$2,520 and \$2,640, prior to that, we sold a non-CAC example for \$5,405 in October 2017. The current PCGS Price Guide value is \$6,500. This GEM is worthy of a strong bid. ULTRA RARE any finer, keep in mind that the only PCGS MS67 example to ever sell in auction realized \$108,000 in the 2018 ANA auction.

\$1 1935-S PCGS MS66+

An impressive looking GEM that is tied among 31 other examples for second highest graded at either service. This 66+ is boldly lustrous with a glorious satiny sheen. The obverse shows a frosty, pearly silver and white patina at the rims. There are, under the closest of inspection with a strong glass, a few hidden, yet very tiny ticks, which we note for accuracy. Sharply struck on both sides. This coin has a very pleasing visual allure, and is within the condition census for the date.

PCGS 32, NGC 1. The most recent example sold for \$5,040 in May 2020, and prior to that, one sold for \$10,800 in the 2019 FUN auction. The current PCGS Price Guide value is listed at \$10,000. NONE of the three PCGS-graded MS67s have ever sold in auction, but the last NGC-graded MS67 sold for nearly \$20,000 over a decade ago! This is a great example for any set. Good luck.

A condition census level example of this early date Gold dollar. An incredible survivor in a stunning state of preservation. To call this jewel anything less than a PQ GEM is a disservice to the quality and eye appeal! We are amazed at this marvelous, HIGH END MS66.

Bold golden luster blooms all over. The fields range from satiny to semi-Prooflike with a rich, amber tone that is just delightful! The luster is truly intense with a smooth rolling cartwheel. Nicely struck with bold definition on both sides. With its great color and radiant brilliance, this GEM has a great look overall.

PCGS 3, NGC 3, CAC 2. How is this for rare--the last PCGS MS66 example sold in June 2004. The PCGS Price Guide value is \$16,000. There are just four coins graded higher, including a monster MS68 CAC that brought a record \$88,125 in our May 2020 Regency Auction. Worthy of a SUPERB type or date set, we anticipate strong bidding for this beauty.

A real GEM with smooth white surfaces that flow with mint luster. The last year of issue for this design and one of only two years in which the San Francisco Mint issued Peace dollars.

PCGS 795, NGC 392. Listed in the Collectors Universe Price Guide at \$1,000. The most recent auction record was \$900 in February 2020. The date has good availability in the mid-Mint State grades but becomes more elusive in MS65. A nice addition for a better Peace Dollar set.

Among the highest graded examples, PCGS has graded just a pair higher; hard to imagine! Pleasing warm, honey-gold with lighter wheat-gold highlights. Sharply struck, the only thing we see is a tiny mark juts below Liberty's hairline. The overall eye appeal is quite nice.

PCGS 25, NGC 20. With each service grading only 2 finer, NGC and PCGS have both graded 1 in 67+ and 1 in 68, we suspect there is duplication of submissions. The most recent non-CAC PCGS MS67 that sold in auction realized \$3,360 in March 2019 and the Collectors Universe value is \$2,750. We have not been able to stop staring at this totally amazing Liberty Head quarter eagle. TIED FOR FINEST GRADED, this is a stunning, exceptional quality GEM. WOW! This coin is picture of PERFECTION.

Intense, blazing luster radiates with an incredible amount of fiery brilliance. The boldness of the luster amplifies the rich, orange and honey gold

toned surfaces that gleam all over imparting an amazing original eye appeal that draws in the viewer's gaze. Once there, the the viewer is drawn deeper, seeing exceptionally smooth surfaces and sharply struck devices.

LOT 319**\$2.50 1892 PCGS PR66 DCAM**

An incredible piece of numismatic caviar! An absolutely beautiful GEM survivor of only 105 Proof 1892 quarter eagles produced. Not only is this coin a stunning deep cameo, but it is an interesting and perhaps UNIQUE error as well.

Ultra deep, brilliant, and fully reflective mirrors are icy, sleek and clean. Offering the utmost quality of clarity, the fields appear as a deep, black sea surrounding frosty, well struck devices. Every detail is sharply rendered by an exacting blow of the dies, save for one area at the bottom of the shield and eagle's legs. Looking at the texture of this area, with some striations and lacking any evidence of tooling, we believe that some sort of dirt and grease filled that area of the die, struck this coin, then fell out. Of the recent sales of Proof 1892 quarter eagles, we are hard pressed to find another, and perhaps after striking this coin the grease was discovered and removed from the die, before coinage resumed. This mint made "flaw" does not have a huge impact at all on the great visual allure, especially to the naked eye, and indeed adds some character to this otherwise PRISTINE GEM example. All told, of the original mintage of 105 pieces, perhaps 45-55 survive, all struck from a single set of dies. Several of these pieces are impounded in institutional collections, forever off the market.

PCGS 8, NGC 4. The most recent example to sell realized \$25,850 nearly four years ago. The current PCGS Price Guide value is listed at \$37,500. With just four graded higher. This interesting Proof gold rarity is a delight to behold and will see strong bidding for sure. Good luck, and congratulations in advance to the winning bidder.

There are few tiny, innocuous ticks that preclude an even higher grade, but they do not really appear in the dreaded reverse field above the eagle's back. Outstanding in every way.

PCGS 631, NGC 375, CAC 110. There are 44 in MS65+ and the most recent example realized \$4,320 in December 2019 and the current Collectors Universe value is listed at \$4,500. OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

\$2.50 1911-D STRONG D. PCGS MS65 CAC

With a mintage of only 55,600 the 11-D quarter eagle is the undisputed KEY to the Indian Head series. In constant demand from collectors from problematic, circulated pieces to PREMIUM GEM examples such as the one offered here. One of the ten finest endorsed by CAC, there is just a single CAC approved MS66 finer.

Totally original in every way, and incredibly RARE as such! Wonderful, indeed truly sensational satiny lustrous and awesome, smooth surfaces are nearly unimprovable. The surfaces do not even have the lightest frost break and there are serious traces of contact of any kind to be found anywhere. There is one small scuff in front of the nose on the obverse. The luster is strong and really glows from all over. Both sides are an even deeper ORIGINAL yellow gold color. All of the details are frosty and have bold strikes. The eye appeal is great!

PCGS 23, NGC 78, CAC 9. This incredible PCGS/CAC example is cleaner than the NGC MS65 CAC that we sold for \$79,313 in July 2018. The current CAC CPG value is listed at \$72,600. Less than a handful have ever graded finer at PCGS, the most recent PCGS MS66 to sell in auction brought \$176,250 in April 2013. This fully struck, totally original, GEM is exceptionally high end and will see very strong bidding when it crosses the block.

AWESOME, velvety, billowing mint luster radiates all over with an intensity rarely seen on this series. The lustrous surfaces are aglow with an eye arresting brilliance. The devices are sharply struck and the surfaces are essentially without flaw. While a strong glass reveals a couple of insignificant ticks, this impressive SUPERB GEM boasts an eye appeal that is among the best we have seen for the entire type!

This is a wicked neat piece, this date and grade absolutely are “silent” stoppers in the series. This coin is totally magnificent and is SUPER HIGH END! It is just shy of a full MS65 ranking. PCGS really showed it little mercy!

Deep prooflike mirrors beam boldly from all over, and the outstanding surfaces resemble a full Proof. Add a strong luster and wow-this coin has serious life!† Overall, the surfaces appear clean; remarkably, there is nothing more than a microscopic tick or two, and visible only when using a strong glass. Both sides are a gorgeous and totally original deep yellow gold color with faint greenish gold highlights. There are NO spots or discolorations. Miss Liberty and the details are thickly frosted and have full strikes, with a full 3D look. The eye appeal is awesome!

ONLY 900 were ever minted! PCGS 23, NGC 11, CAC 4. This is the ONLY 64+ graded at either service. We strongly believe all the prices guides are wrong for this date in PCGS/CAC MS64 and higher. The current PCGS Price Guide value is \$20,000 and that is based on the \$20,563 that this coin brought in our May 2019 Regency Auction. Keep in mind just seven are graded finer at PCGS, the last one of which sold back in 2012! That is RARE!

PCGS 50, NGC 34. The last one to sell brought \$6,900 in June 2020, but prior to that, one sold in December 2019 for \$8,700. The current Collectors Universe value is \$12,500. LOT 327**\$5 1806 ROUND 6. 7 X 6 STARS. NGC MS62**

Only BD-6 was used to strike this Knobbed 6 Red Book variety. Sharply struck and possessing brilliant yellow gold surfaces, this is a rather pleasing Mint State piece. Ample luster has a slight glossy texture. Some minor cabinet friction is seen and a few very minor traces of contact account for the assigned grade. Bright golden surfaces are pleasing to the eye and there is no wear.

PCGS 76, NGC 36. It has been nearly three years since the last NGC-graded example sold, selling for \$15,000 in the 2018 FUN auction. Prior to that, one sold in the 2016 ANA auction for \$15,275. BD-1. As a general rule, the Pointed 6. varieties are rarer than the single 1806 Rounded 6. Though five die pairs were used to strike them BD-1 is R-4, BD-2 is R-5+, BD-3 is R-7, BD-4 is R-5+, and BD-5 is R-7. This easily identified die marriage is the most "common" and pairs 1806 obverse 1 (stars 1 and 2 are nearly touching at two points) with 1805 reverse B, with the right base of the Ts broken off.

A decent AU55, this example has a warm orange and green hue over the golden surfaces. Tinges of original luster bloom in the protected areas. With a strong glass we note some minor hits and some wispy lines. The strike is a touch weak in the centers while being quite sharp at the peripheries. Housed in an old green tag holder.

PCGS 10, NGC 8. The current PCGS Price Guide value is \$12,000. There is a wide range of APRs for PCGS-graded AU55s with the two most recent examples bringing \$6,600 and \$8,400. Like all early gold, this coin is scarce in an absolute sense, even more so with the neat coloration.

This pleasing honey-orange golden toned CHOICE AU 1810 half eagle, is a great representative for the John Reich designed type.

The central obverse devices are crisply struck, though the eagle and some of the peripheral obverse details are slightly blunt. Only the lightest of friction from a very brief stay in commercial channels can be seen with the aid of a glass, as are some very minor adjustment marks, which are limited to the far left obverse rim. The eye appeal is quite nice overall.

PCGS 36, NGC 45, CAC 12. NO CAC-approved AU58 graded by either PCGS or NGC has ever sold in auction. The most recent PCGS-graded example brought \$9,300 in April 2018. The PCGS Price Guide value is \$11,000 and the CAC CPG value is \$12,100. A very conditionally challenging date, and this one is a very high end CHOICE Mint State example!

Original golden color and full mint luster combine for the strong eye appeal of this scarce date. The surfaces are extra nice and above average quality for what is normally seen. Well struck with a sharp mint mark and bold rims characteristic of this San Francisco Mint issue of a modest 164,000 pieces. Although some were released into circulation, most of this issue is thought to have been retained by the Mint and melted in the 1930s. As a result, even lower grade Mint State pieces are difficult to locate, and particularly CHOICE pieces are quite scarce.

PCGS 46, NGC 12, CAC 9. Only 15 graded higher at PCGS, finest is MS64+. The PCGS Price Guide lists the value as \$13,500 and we last sold this coin in March 2019 for \$12,338. \$10 1850 SMALL DATE. NGC AU55 CAC

Well struck with old orange gold toning testifying to this coin's originality. Considerable luster is noted in the protected areas of the design, and contact marks are minimal for a gold coin of this size, type and date. The wear is light and the assigned grade in our opinion is conservative (no guarantees). Several times rarer than the Large Date variety and tough in all grades, especially AU and above.

The strike is bold with the 'S' mintmark large and well defined. First year of operations for the San Francisco Mint as such this date is always popular and in high demand.

PCGS 36, NGC 111. The Collectors Universe Price Guide value is \$4,250. The most recent NGC coin brought a weak \$1,860 in the 2020 FUN auction, but this one should bring a stronger price, as the value and demand for gold has gone up considerably since then. The surfaces of this near-GEM are highly lustrous and fully frosted with elegant, original, old gold toning. For the grade, this coin is relatively mark-free. The eye appeal is wonderful for the issue and grade, and we consider it very high end. Often designated as the No Motto type, the correct designation should also include No Periods, as the periods surrounding the legend E PLURIBUS UNUM on the earlier Wire Rim and Rounded Rim types were removed and the relief modified. This is the first affordable \$10 Indian, as the Wire and Rolled Rim types are major rarities.

PCGS 1025, NGC 791, CAC 142. PCGS has graded 58 in MS64+. No CAC-approved example has sold in over two and a half years, realizing \$4,600 in a February 2018 online only auction. Note that the CAC CPG value in MS64 is \$3,560 and \$10,600 in MS65.

LOT 344**\$20 1861 NGC MS62**

An historic Civil War era date with glowing cartwheel luster. Pleasing olive and gold original toning on satin-like mint bloom. The surfaces of this large gold coin are above average for the assigned grade, and are relatively free of distracting marks, which can largely be seen only with magnification. Moderately scarce in Mint State, and especially so in choice condition, making MS62s a great grade for this date.

PCGS 113, NGC 74. The Collectors Universe Price Guide lists the value as \$7,250. Auction prices realized vary and generally reflect the degree of surface marks; coins with smoother surfaces bring higher prices; the most recent example sold for \$7,200 in December 2019. A very nice coin so bid accordingly.

PCGS# 8932 • ESTIMATE: \$5,500+

**LOT 345****\$20 1862-S PCGS AU55**

Exceptionally lustrous, this CHOICE AU shows little actual wear. A glass reveals some scattered ticks, appropriate for the assigned grade, and none are singularly distracting to the eye appeal. A popular Civil War issue, it is rarer than other San Francisco mint Type 1 double eagles, including the 56-S, 57-S, and 65-S.

PCGS 65, NGC 188. The most recent example sold for \$3,600 in the 2020 FUN auction and the current Collectors Universe value is listed at \$3,500. Scarce any finer and rare in Mint State.

LOT 346**\$20 1864-S PCGS AU58**

Ex. S.S. Brother Jonathan.

A very pleasing, better than normally seen 1864-S double eagle, this one is from the famed wreck of the S.S. Brother Jonathan. Carrying a cargo of gold coins, crashed into rocks off Point St. George near Crescent City, California on July 30, 1865, bringing its cargo to the ocean floor. After being discovered in 1996, the treasure was recovered and the first sale of the coins took place in May 1999. Thanks to the S.S. Central America, S.S. Republic, and S.S. Brother Jonathan, some Type 1 double eagles are available for collectors in high grade (more than 100 64-S \$20s were recovered from the Brother Jonathan).

This lightly worn coin is near Mint State, with just some light friction and some minor contact. Original mint luster gleams all over, highlighting pleasing orange-gold patinated surfaces. The eye appeal is very nice.

PCGS 62, NGC 106. Going back to June 2014, 10 PCGS-graded AU58s have sold in auction, ranging from \$3,120 to \$9,988, with an average APR of over \$5,000. The current Collectors Universe value is listed at \$5,000 and scarce in Mint State. A nice coin with an historical provenance.

LOT 347

\$20 1865 SS REPUBLIC. NGC MS64 CAC

Shipwreck recovered gold coins have a special cache among collectors, from Spanish galleons that sank in the Gulf of Mexico in Colonial times to the more modern era, the idea of sunken treasure thrills numismatists and non-collectors alike. The S.S. Republic, a sidewheel steamer, was lost off the coast of Georgia in October 1865 when it sailed through a hurricane. Aboard the ship was a cargo of approximately \$400,000 in coins, including many freshly minted 1865 double eagles.

The date was considered rare in Mint State until the recovery of the S.S. Republic, and it has made the date available for collectors of Civil War date gold. Like the majority of the shipwreck coins, this ultra CHOICE example is sharply struck throughout and offers a vibrant, golden mint luster. Virtually in GEM quality, the surfaces are devoid of all but the most insignificant ticks that are visible only with the aid of a strong glass. The eye appeal is truly off the charts!

PCGS 4, NGC 13, CAC 19. The two most recent NGC/CAC S.S. Republic examples to sell in auction realized \$21,600 and \$24,000 and the current Collectors Universe value is listed at \$32,500. NGC has graded five coins finer, and the value more than doubles to the next level! What a great Civil War date gold coin in pristine condition! Bidding will be fierce for sure!

LOT 348**\$20 1867 PCGS MS62**

A popular Type 2 double eagle in a very popular Mint State grade. Incredible mint luster booms with a vivid intensity rarely seen on 1867 \$20s. No wear is to be seen anywhere on either side, and the surfaces are not too “choppy” or hacked up, showing just some minor contact marks on the rich orange-gold surfaces. The eye appeal is quite nice!

PCGS 54, NGC 39. The most recent example to sell in auction brought \$6,000 and the current PCGS Price Guide value is listed at \$7,500. Fewer than ten examples are graded finer, four in 62+, four in 63, and the amazing Newman coin which is a 66! This very attractive coin represents the highest obtainable grade most collectors can ever hope to buy.

Another Type 2 double eagle that is quite scarce in Mint State grades, and VERY RARE any finer than MS61. Some minor contact marks are scattered around on this brilliantly lustrous Uncirculated 70-S \$20. None of the marks are singularly distracting to the outstanding eye appeal.

PCGS 69, NGC 45. The most recent example sold in April 2020 for \$5,280 and prior to that, one sold in December 2019 for \$6,500. The current PCGS Price Guide value is listed at \$7,000 and it jumps to \$21,500 in 62. Add this lovely BU 71-S \$20 to your collection today.

\$20 1883-CC PCGS MS62 CAC

A very high end, nearly CHOICE example of this popular Carson City mint double eagle. While the mintage is was a relatively small 59,962, the 83-CC \$20 is generally available in most grades up through AU58, but is still somewhat scarce in any Mint State grades, and in MS62 and finer this date is VERY RARE.

Housed in an old green tag holder, this is a sharply struck example with a glowing, original orange-gold patina. Generally clean surfaces display some very minor traces of contact under a strong glass, but they have little impact on the visual appeal.

The OGH holder, generation 3.1 was last used in September 1998, so this is NOT one of the 20-30 Mint State coins that surfaced in 2001 (per Garrett and Guth).

PCGS 25, NGC 6, CAC 4. Only a single MS62 PCGS/CAC has ever sold in auction, realizing \$30,550 in July 2016. The CAC CPG Value is \$26,600. There are only eight coins graded finer, MS63 the finest. This essentially choice example compares nicely with the 62+ that sold in March 2018 for \$30,000. High end, this coin will truly be appreciated for its totally originality and stunning visual allure, bid accordingly!

PCGS# 8999 • ESTIMATE: \$22,000+

LOT 351**\$20 1898-S PCGS MS65
CAC**

This is a seriously underrated and conditionally RARE date. Despite a large mintage of over 2.5 million, very few were saved at the time of issue, and most that survive in Mint State came from European holdings that were repatriated in recent decades. While common in Mint State grades up to MS64, these are conditionally RARE in MS65, exceedingly so any finer.

A vivid, lustrous brilliance booms on both sides accents truly original surfaces. Rolling cartwheel luster brings out the attractive orange and yellow gold coloration. The devices are sharply struck and frosty and the eye appeal is great, housed in an older blue label holder. Premium Quality as denoted by the CAC bean.

PCGS 121, NGC 105, CAC 16. The most recent example sold in our March 2019 Regency Auction 31, which realized \$7,931, prior to that one sold for \$9,000 in September 2017. The current CAC CPG value is listed at \$8,750. EXCESSIVELY RARE any finer, indeed virtually unobtainable, there are two in MS65+ and a single MS67 (the Eliasberg coin) finer. This magnificent GEM is worthy of an awesome collection of gold coins.

PCGS# 9037 • ESTIMATE: \$1,800+**LOT 353****\$20 1900 PCGS MS64+ CAC**

This borderline-GEM is totally original and very eye appealing. In the old days it would have been cataloged as GEM BU for sure. Rich golden color is brought out by a lovely luster that is above average for the date and grade. There are no discolorations or heavy contact of any kind and the eye appeal is bold.

As of the writing of this description gold is approaching all time record highs and demand for “generics” is very strong. Take advantage now!

LOT 354**\$20 1901 PCGS MS64 CAC**

This near GEM is characterized by delightfully original pale rose gold with orange highlights. Full cartwheel luster blazes from surfaces with minimal contact marks, accounting for the approval by CAC. Although considered a relatively common date, the mintage and population are a fraction of the 1904.

PCGS 1804, NGC 1742, CAC 179. Listed by PCGS at \$2,600 and at \$3,140 in the CAC CPG. Prices have been steadily rising due to increasing demand and the rise in the gold price this year. Coins of this date and quality are becoming scarcer ñ keep this in mind when figuring your bid.

PCGS 3561, NGC 3357, CAC 372. PCGS graded 145 in MS64+ and for a "generic" date, is quite scarce any finer. The current Collectors Universe value is \$2,845. Bid accordingly.

MS65+ CAC**

Do not be fooled by the pops, this is a much rarer date in GEM than many people realize. Finding a coin like this that is HIGH END and nice is a real feat.

Superb surfaces are clean overall. Only when using a strong glass can you see a few tiny ticks and a line or two. There are NO bag marks as commonly found. A strong glowing luster beams from all over. Both sides are a totally

original pale gold color. There are NO spots or discolorations. There is a dusting of toning on the high points which to see you need to tilt the coin. Miss Liberty and the details are so sharply struck even her nose is full. The eye appeal is fantastic!

PCGS 374, NGC 87, CAC 18. NO PCGS CAC MS65+ pieces have ever sold via auction. Even in regular MS65, the last time one sold (PCGS CAC) was back in 2015. For whatever reason, this date is usually graded very commercial. The coins come looking very crude. We can't agree more with the grade here. Price guides will not accurately reflect the value of a coin like this. An MS66 PCGS CAC would cost at least \$25,000 today!

OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

\$20 1915-S PCGS MS66+ CAC

This is by far one of the nicest MS 1915-S Saints we have ever seen! No question this coin is closer to MS67 than MS66! Keep in mind, these do not come looking as great as commoner 1924's.

Exciting surfaces are superior to most. Only when using a strong glass can you find some microscopic ticks widely scattered around in tiny groups. For a 15-S the surfaces are seriously above average in terms of BOTH cleanliness and texture they are a slight satiny texture. We actually grade the reverse a full MS67! This is NOT a "dirty" or rugged looking coin. The luster is strong and glows from all over. Both sides are an even deeper gold color. There are NO stains or discolorations. Miss Liberty and the details are frosty and are very well struck. The eye appeal is fantastic!

PCGS 244, NGC 171 CAC 19. PCGS has graded just 6 coins in MS66+ with NONE higher. The last PCGS CAC piece to sell in auction brought \$36,000 in January 2020 in over the top frenzied bidding. That was no fluke, there had not been one for sale in auction since 2012. and in April 2020 a regular MS66 (no +) brought \$16,000. The coin offered here has been off the market for many years. If you are a Saint Collector this is a really SUPERB fresh piece. It WILL be a highlight of ANY GEM set. Good luck!

LOT 366**\$10 1860 CLARK GRUBER. PCGS XF40**

Historic and incredibly important, the Pikes Peak design on these 1860 Clark Gruber eagles are among the most popular of Territorial or "Pioneer" gold coins.

Though gold deposits in Jefferson Territory (now Colorado) were discovered as early as 1835, the Colorado gold rush hit its peak in 1859 to 1860. Issued by Clark, Gruber, and Co, a Denver based bank and private mint, the firm was among the most honest of the era, both in their financial and assay/minting business. Because they alloyed customers' gold deposits with silver, the face values equaled that of the Federal coinage, but the weights were actually heavier. Clearly the public put its trust in the Clark Gruber firm, as most of these show considerable circulation. The 1860 eagle and double eagle sport a fanciful view of Pikes Peak, the famed mountain jewel of the Rockies. The dies were produced by an engraver who had not seen the mountain, and its triangular shape makes it quite charming for collectors today.

The present XF, graded ages ago, and housed in an old green tag holder has been off the market for quite some time. All Clark Gruber \$10s are listed as Kagin-3, which is considered to be Rarity-5. The coin offered here is a late die state, which shows a dramatic die crack from D in GOLD through the right base of Pikes Peak, to the rim to the right of D (this crack is not described in the Kagin book, but is the same as lot 606 in ANR's September 2003 auction sale). Rich green-gold color with tinges of tangerine hues cover both sides. Well struck and showing its distinctive details boldly, including the scruff of bushes and trees at the base of the mountain, this coin has the appearance of an even higher grade. We think that back when this coin was graded, it was "net" graded for some microscopic planchet flaws, as made. A few wispy marks are noted with a glass, evidence of its time in frontier commerce, none of which are distracting to the eye. Indeed, this coin has an exceptional visual allure that is truly a delight to behold!

PCGS 15, NGC 4. While there are a number of examples in AU grades, many of those have been dipped, stripped, cleaned, conserved, or have been otherwise processed in a way to bring out the luster, and destroy the originality. This piece is a very happy exception to that rule. The last PCGS-graded example has a similar look overall, and sold in the 2017 FUN auction for \$19,975. Prior to that, no XF40 has sold since the above mentioned ANR example. The current PCGS Price Guide value is \$24,500. The only other Clark Gruber \$10 we offered was the PCGS MS62 from the Phil Flannagan Collection we sold in December 2013 for a near record \$97,750 on an estimate of \$65,000+. We suspect that this lovely XF40 will likewise see strong bidding that brings it above our estimate range. A great type coin for anyone working on a type set of Territorial gold coins. Good luck.

One of the greatest design types of all of American numismatics, the Pan-Pac \$50 is a true classic! You really cannot help but have a true sense of WONDER when holding one of these rarities with its classical design of the helmeted head of Minerva, the goddess of wisdom on the obverse and the wise owl on the reverse. There is so much romance associated with these legendary pieces, not the least of which is the occasion for which they were coined, the Panama Pacific Exposition and the celebration of the opening of the Panama Canal, a stunning feat in its own right. Of the original authorized mintage of 1,500 coins just 645 survived the melting pot. Its status as one of the 100 Greatest U.S. Coins in the book by Jeff Garrett and Ron Guth make this a truly important and desired type coin.

The quality here is HIGH END and undeniable, bordering on the GEM classification. There are no serious issues to be found anywhere. Overall, the surfaces are clean and smooth. It's really a lot of fun to look over these big beautiful coins. The luster is typical and is decent. Both sides are a totally original Pan Pac gold color. There are NO spots or discolorations. The details are well struck. The eye appeal is very nice!

PCGS 146, NGC 160, CAC 49. There are 13 in MS64+ at PCGS. Clearly there has to be a ton of duplication of submissions as the total Populations at PCGS and NGC are above the mintage of 645. Morgan's famed design for the silver dollar mated with a reverse die that features a large, perched eagle with olive branch and arrows in its talons. **IN GOD WE TRUST** arcs around and below the eagle. Struck in copper with a reeded edge, this is a low R-7 pattern, with fewer than a dozen specimens known.

Struck in copper with a reeded edge, this is a low R-7 pattern, with fewer than a dozen specimens known.

A gorgeous, warm coppery orange shows a hint of iridescent toning that clings to the peripheries. Boldly reflective mirrored fields are deep, showing off a flashy, watery look. The devices show the typical striking weakness at the centers and a very thick mint frosty texture. A few tiny flecks and a tiny mark on the cheek will hopefully serve as pedigree markers, though we have not been able to positively plate match it to any earlier catalog offerings.

PCGS 1, NGC 0. There are only two graded in the CAM designation. A PCGS PR66 RD sold in the 2007 FUN auction for \$27,600 and in that designation the Collectors Universe value is listed at 30,000. Only two are graded numerically finer, both in the RB category, a PR66+ RB and a 67+ RB. This is a very rare opportunity for the advanced Pattern collector and once this GEM is sold, who knows when the next one will come up for sale.
